

Retail Elevated

Design, Build, Grow - ADP creates structural foundations that expand and evolve with your business.

Retail success begins with smarter fixtures and leads to a future designed to grow with you.

At ADP, we believe great retail environments fuel great business outcomes. With over 40 years of experience, we've helped brands across Australia and beyond bring their retail visions to life fast, affordably, and without compromise. Whether you're outfitting a national chain or a boutique store our innovative display systems are designed to scale with your business and evolve with retail demands.

Sincerely,
Gareth Craddock
General Manager

Experience & Innovation

ADP Retail Systems has over 40 years of niche industry experience designing, manufacturing and installing innovative retail display solutions that are easy to specify and install.

Established in 1981 by founding director Anthony Craddock, ADP proudly remains a 100% Australian-owned family business.

With offices nationally, ADP offers one of the most extensive ranges of turnkey, prefinished modular display fixtures for the retail industry.

From the humble beginnings of crafting from a backyard shed to the global business we are today, ADP has a proven track record you can trust, with a relentless commitment to designing innovative products that are

supported by the option to lever ADP's comprehensive in-house customisation capabilities to meet the demands of an ever-evolving retail landscape.

Our products are the first choice of many interior designers, fit-out specialists, supermarket chains, multinational corporations and small-to-medium enterprises (SME), having contributed to the creation of benchmark retail establishments around the world.

By collaborating with ADP during the design stage, you can work with one company to develop unique and striking retail concepts for your next project.

ADP is committed to improving sustainable retail display design to minimise our impact on the world's resources, lessen our footprint and provide more value for future generations.

Vision, Mission, Belief & Values

Vision

To be an innovative and agile leader - at the forefront of supplying modular retail fixtures globally.

Mission

To maximise our client's in-store profitability through exceptional retail fixtures that enhance the brand perception and customer experience.

Belief

At ADP, we believe good retail fixtures should :

- Inspire and influence positive brand perception
- Create memorable experiences
- Contribute to the functionality and efficiency
- Meet the client's ever-changing needs
- Be designed and built for maximum longevity and durability

Values

- Responsiveness
- Adaptability & agility
- Conscious of deadlines
- Streamlining and simplifying complexity
- Taking responsibility
- Building strong partnerships
- Always improving

All ADP products are backed by our market-leading 5-year warranty. ADP Store Fixtures' products are engineered for long-term performance and durability. Our products are extensively tested and assessed to ensure that they will meet and exceed our customer's requirements for the expected lifetime of the product.

- Designed in Australia
- Turnkey, ready-to-install solutions
- Optional bespoke customisation
- Design support & collaboration
- Dedicated to fast project supply with short lead times
- Fast shipping Australia wide
- Outstanding craftsmanship and attention to detail
- Adaptable to fit whatever specifications or requirements
- Reduced costs at the fit-out stage
- Modifiable, flexible and modular
- Reconfigurable and relocatable
- Robust construction and stability

A streamlined process that ensures efficient management, optimised layouts and seamless operations across retail environments of all sizes.

1. Understand

We start by building an understanding of your project's objectives and challenges to provide tailored solutions that meet your unique requirements.

2. Plan

Next, we recommend and develop a concept that best fits your needs. We provide tools like floorplans and 3D visuals of the proposed solution where applicable.

3. Proposal

Once a concept has been approved, ADP prepares detailed cost estimates to give you a clear understanding of the budget required.

4. Realise

Once the proposal is approved, our team immediately begins preparing your order. This may involve custom joinery, overseas crucial component sourcing, or warehouse picking.

5. Communicate

A dedicated ADP account manager keeps you up-to-date with the project's status, ensuring seamless communication throughout the project's lifecycle.

6. Rollout

With stock dependability, in house customisation and an agile delivery model, we've got the capacity to handle large-scale nationwide rollouts fast and efficiently.

7. Post Project Review

Our team takes your success personally. Finally, we always ensure that we follow up to check that every base is covered or your finished project, address any outstanding questions and ask for feedback.

Consultation

ADP's consultancy service helps retailers and designers optimise outcomes in space efficiency, in-store profitability, modular functionality, rollout effectiveness, and sustainability.

Fixture Design

At ADP, we use cutting-edge CAD design, in house prototyping and visualisation technology to create innovative fixture designs, floorplans and walkthroughs. Our CAD library includes a wide range of products, which allows us to quickly develop both modular and customised retail concepts.

Procurement & Supply Chain

Our network of local and overseas suppliers spans over 15 countries, ensuring certainty and continuity of supply. With ready-to-go stock for immediate dispatch, ADP streamlines your supply chain and reduces exposure to risk.

Manufacturing

ADP's manufacturing facility uses state-of-the-art technology to produce various custom joinery and metalwork items, including custom counters and showcases, retail joinery, supermarket displays, melamine shelving and slatwall, and custom metalwork.

Storage & Distribution

ADP Store Fixtures' primary distribution centre is in Perth, Western Australia, with subsidiary warehouses in Sydney and Adelaide. These facilities offer 3PL storage capabilities for our retail chain partners' custom fixture programs.

Store Rollout

Our logistics and customer service teams assist retail clients to develop effective store roll-out programmes, ensuring that each of your store locations receives its fixtures on-time, and meets any site-specific delivery requirements.

Why ADP

In Stock Shelving Solutions

Why wait several months for your new store fixtures? ADP Shelving is fully stocked in Australia, so that you can get your new or refurbished store project completed ahead of schedule.

In House Customisation

We operate our own in-house joinery factory right here in Australia. We can accommodate custom requests and design fit-for-purpose solutions specifically for your store without the long lead time of waiting for overseas supply.

Comprehensive Range

With over 500 projects completed to-date, ADP offers an industry leading range of off-the-shelf solutions. Instead of engaging multiple different contractors, you can choose all your ambient from one source with ADP.

End-to-end Solution

Our team will work to take your project from the initial stages right through to installation, providing peace-of-mind that your project will be handled by the experts at every stage.

3D Design

Visualise your project before you commence construction. From your initial site floorplan, we can create layouts of all the fixtures in the store so that you can be sure to achieve your desired project outcomes.

5 Year Warranty

ADP products are provided with a 5 year warranty. Designed from over 40 years experience, these solutions are proven and tested to meet the specific demands.

“We are seeing nothing but an upward trajectory in our sales, which is fantastic.”

Ainslie Quilty
Cellarbrations Wyoming

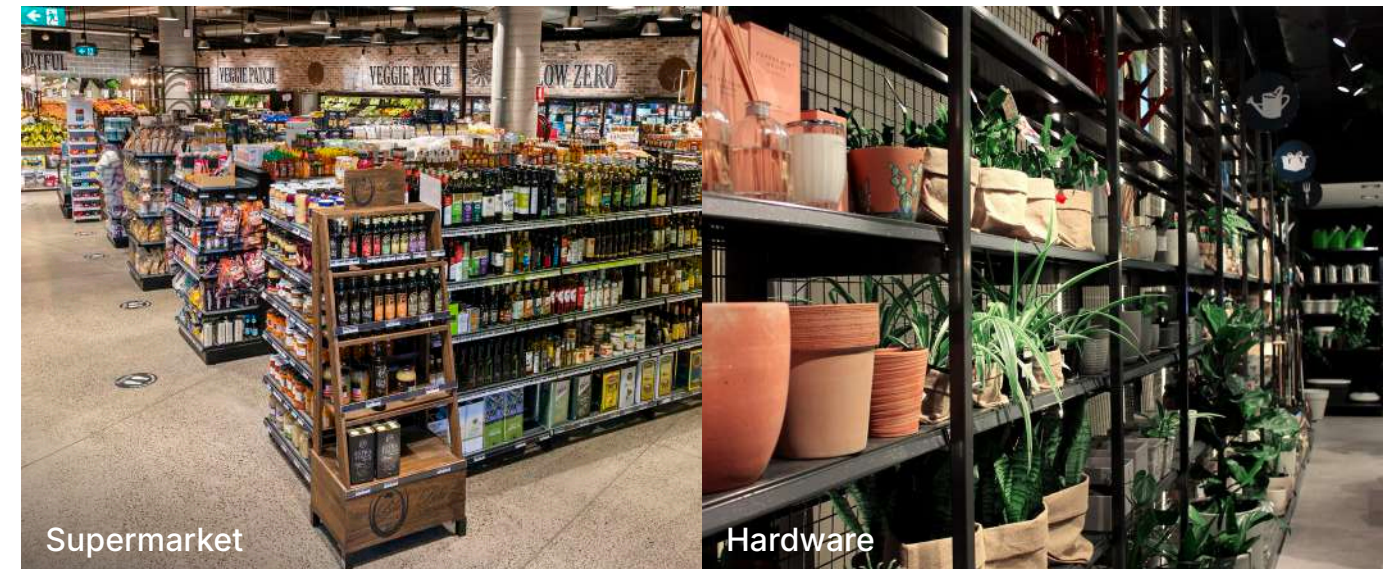

“We have worked with ADP on several new store projects under the IBA banner. We have always found the team to be responsive and proactive at every stage of these projects. The speed at which they can deliver custom store fixture packages is unmatched in the industry. This has allowed us to provide a differentiated experience in-store and we have achieved some amazing results for our members with ADP fixtures”.

Tim Wisdom
Australian Liquor Marketers

“I work with Reuben and the ADP team on any Liquor Store upgrades for our members. I have always been impressed with the dedicated support that we receive from the team. They are quick to respond to my queries, and their technical expertise has allowed us to provide a display solution even for the most challenging applications. Using ADP also gives us the flexibility to create something unique for our stores, and the quality of the fixtures helps to enhance store presentation”.

Kickstart your store fit-out in the right order. Envision your store with a 3D visualisation that will inspire you, ignite more ideas and complement your design concept.

We call it, starting with the end in mind—a-crystal-clear vision of the end result.

- See how your fixtures will look in-store
- Choose from 1000's of standard modular fixtures
- Access the latest in global fixture design
- Resolve potential design flaws ahead of time
- Fast turnaround based on your floorplan
- It's easier and cheaper to rectify digitally than during fit-out
- Real 3D renders that can be used to guide your project
- Get inspired about the next phase of your store
- Gain confidence in your design and strategy with expert support

S-Mart Shelving Systems

Boost Your Retail Space
Optimisation

S-Mart Overview

1

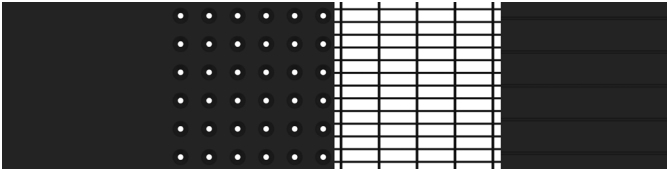

Uprights

Choose from a full selection of bay heights, including 1200, 1400, 1500, 1800, 2100 and 2400mm.

2

Back Panel Options

Available with your choice of plain, volcano (punched), slatwall or mesh backpanels.

3

Bay Widths

S-Mart Shelving is available in 600, 665, 914, 1000 and 1200mm bay widths*

*Some S-Mart shelving options are not available with every configuration. See catalogue for details.

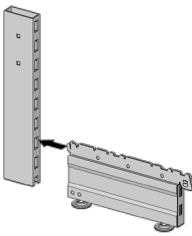

4

Colours

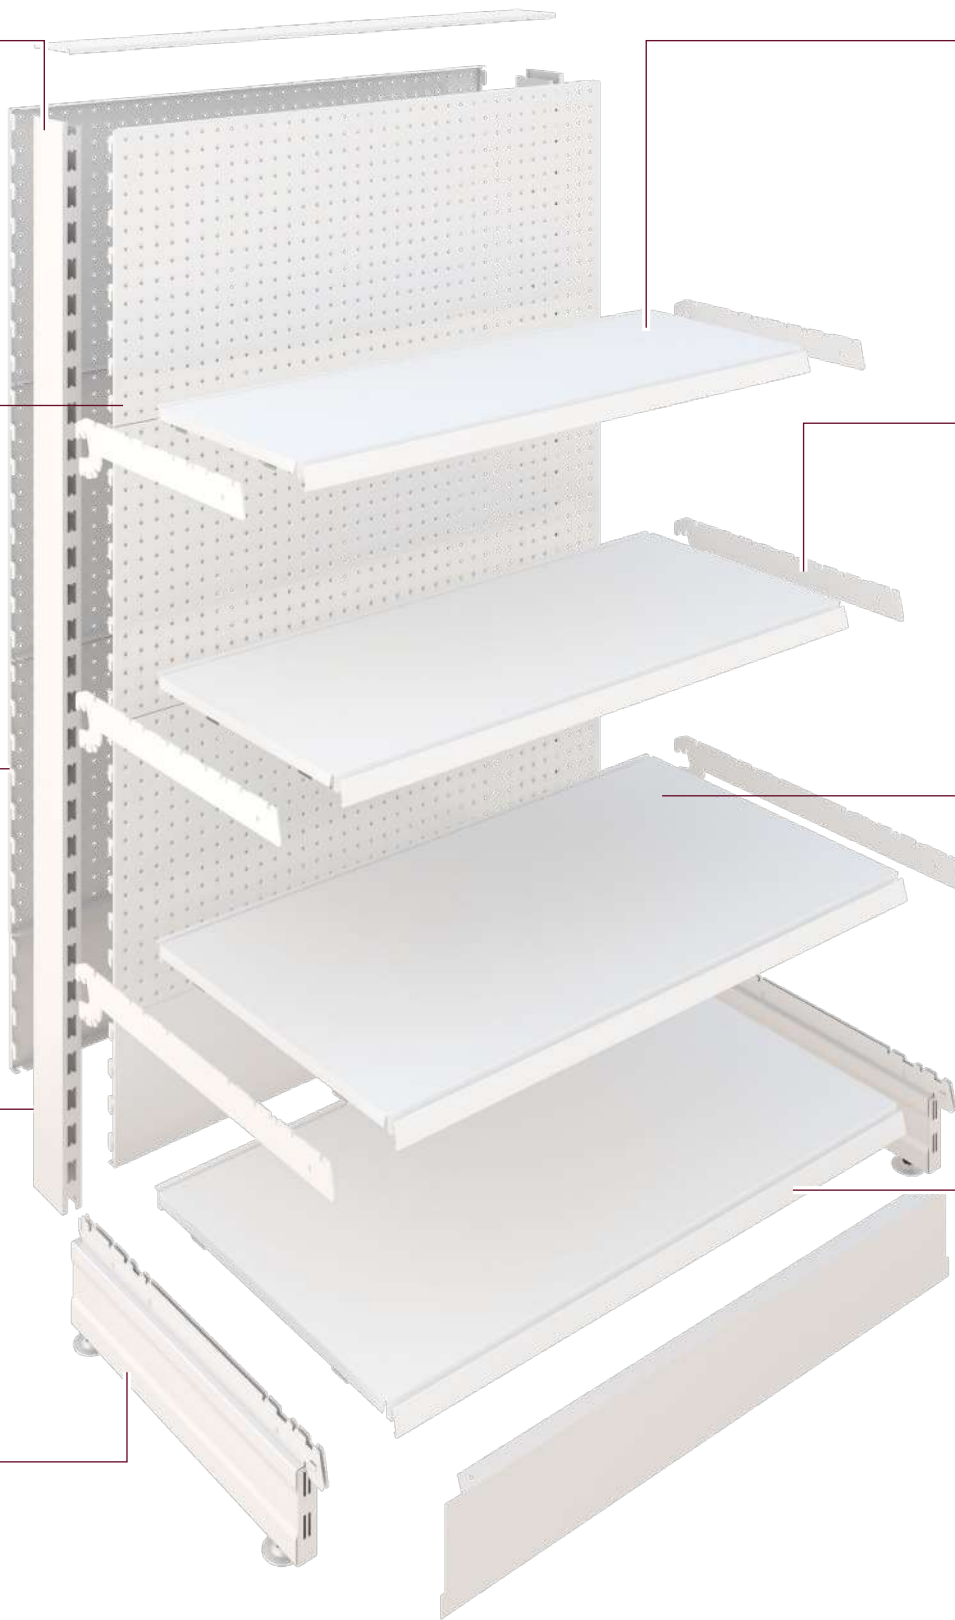

Available in 'Matt Black' or 'Gloss White' colours. Powdercoat colours available on request.

5

Base Foot

Detachable base leg in standard 160mm height for 100% modular configuration. Low Height (100mm) and High (250mm) base legs available on request.

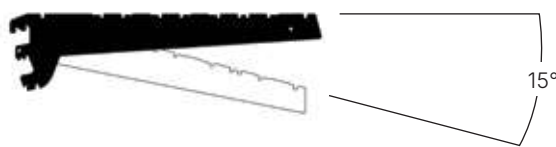

6

Shelf depths

Choose from the largest range of shelf depths, available in 300, 370, 470 and 570mm depths as standard.

8

2-position shelf bracket

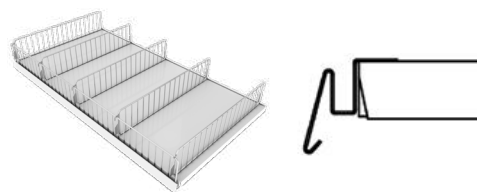

10

Strength and stability

Higher than industry standard material thicknesses to achieve high load capacity per shelf.

9

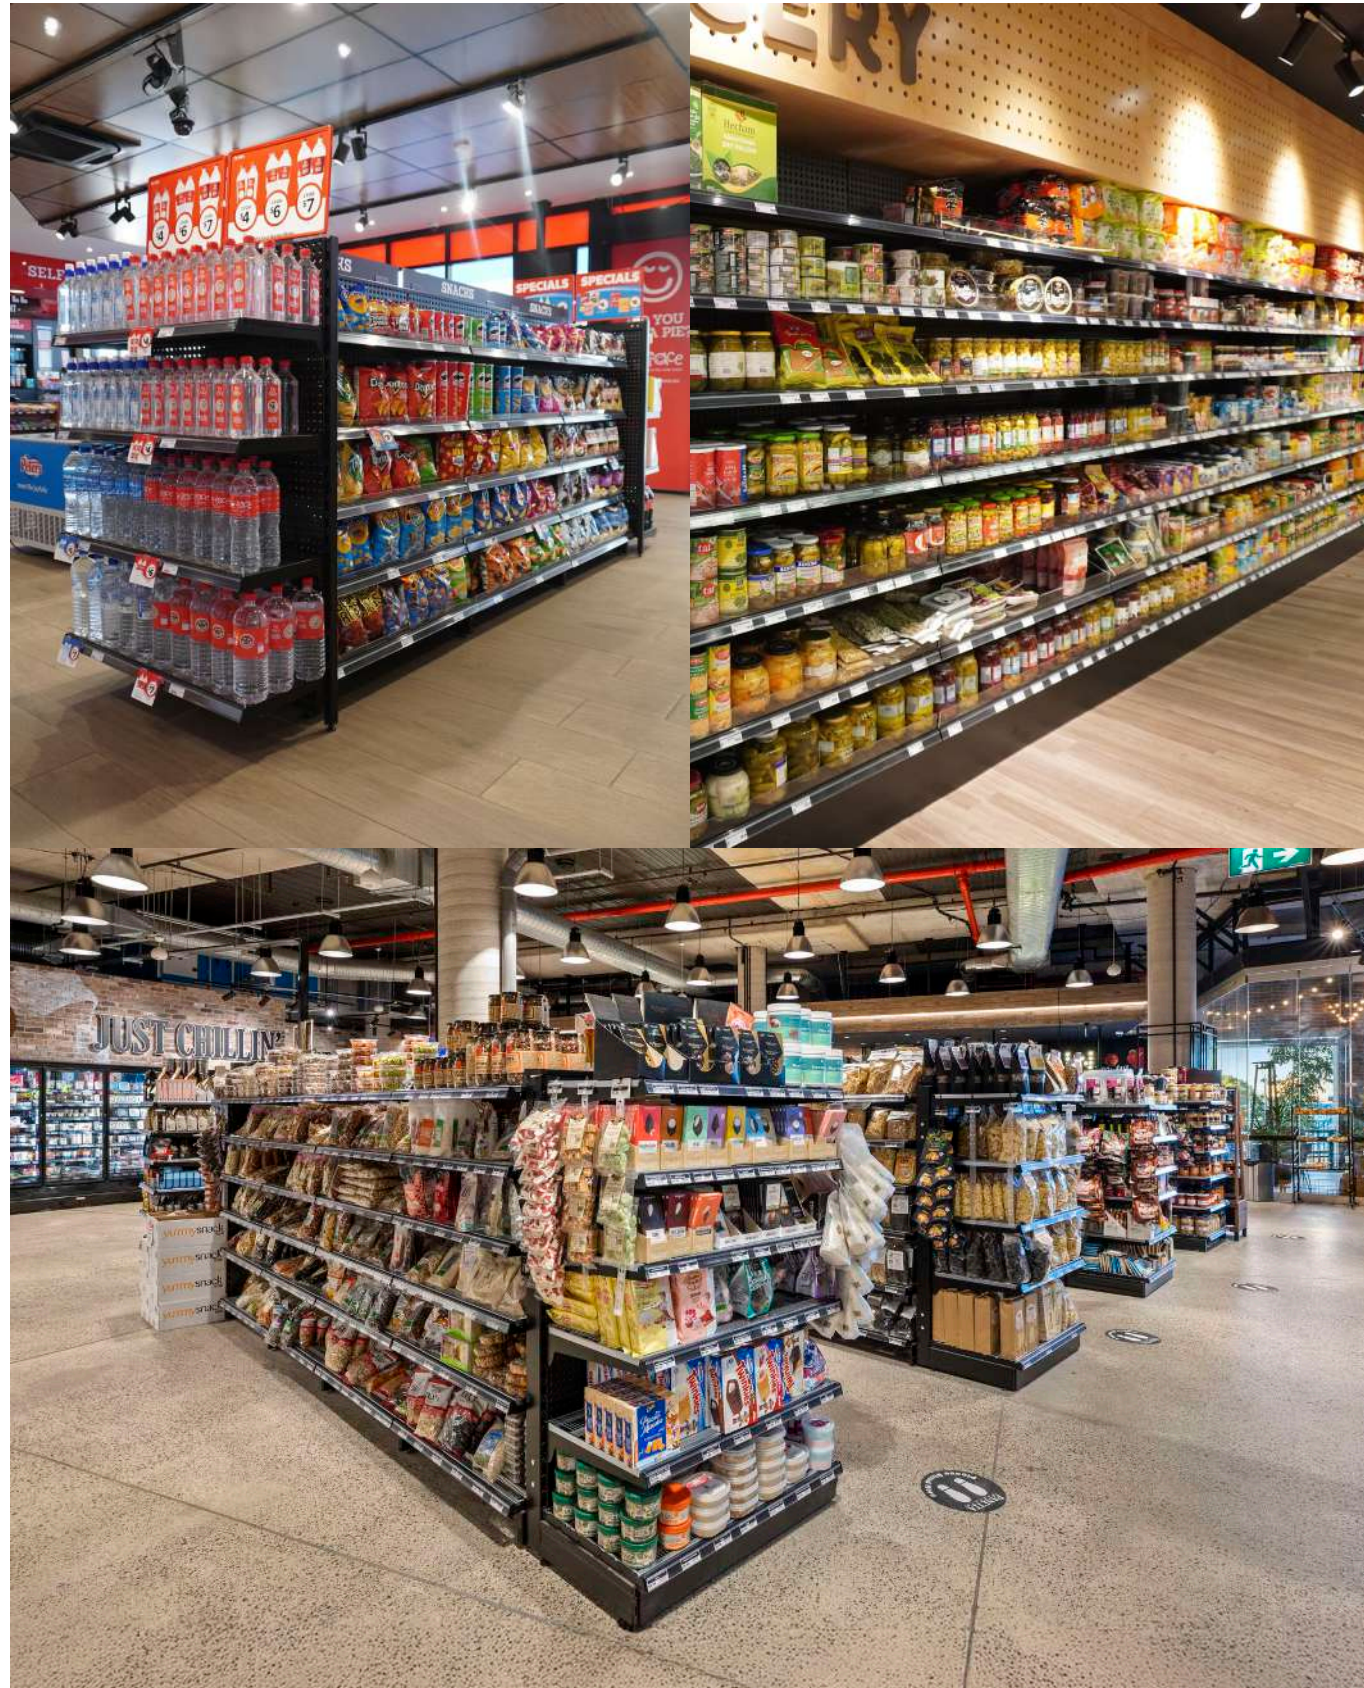

Versatile integrated shelf groove for attaching dividers and other shelf accessories

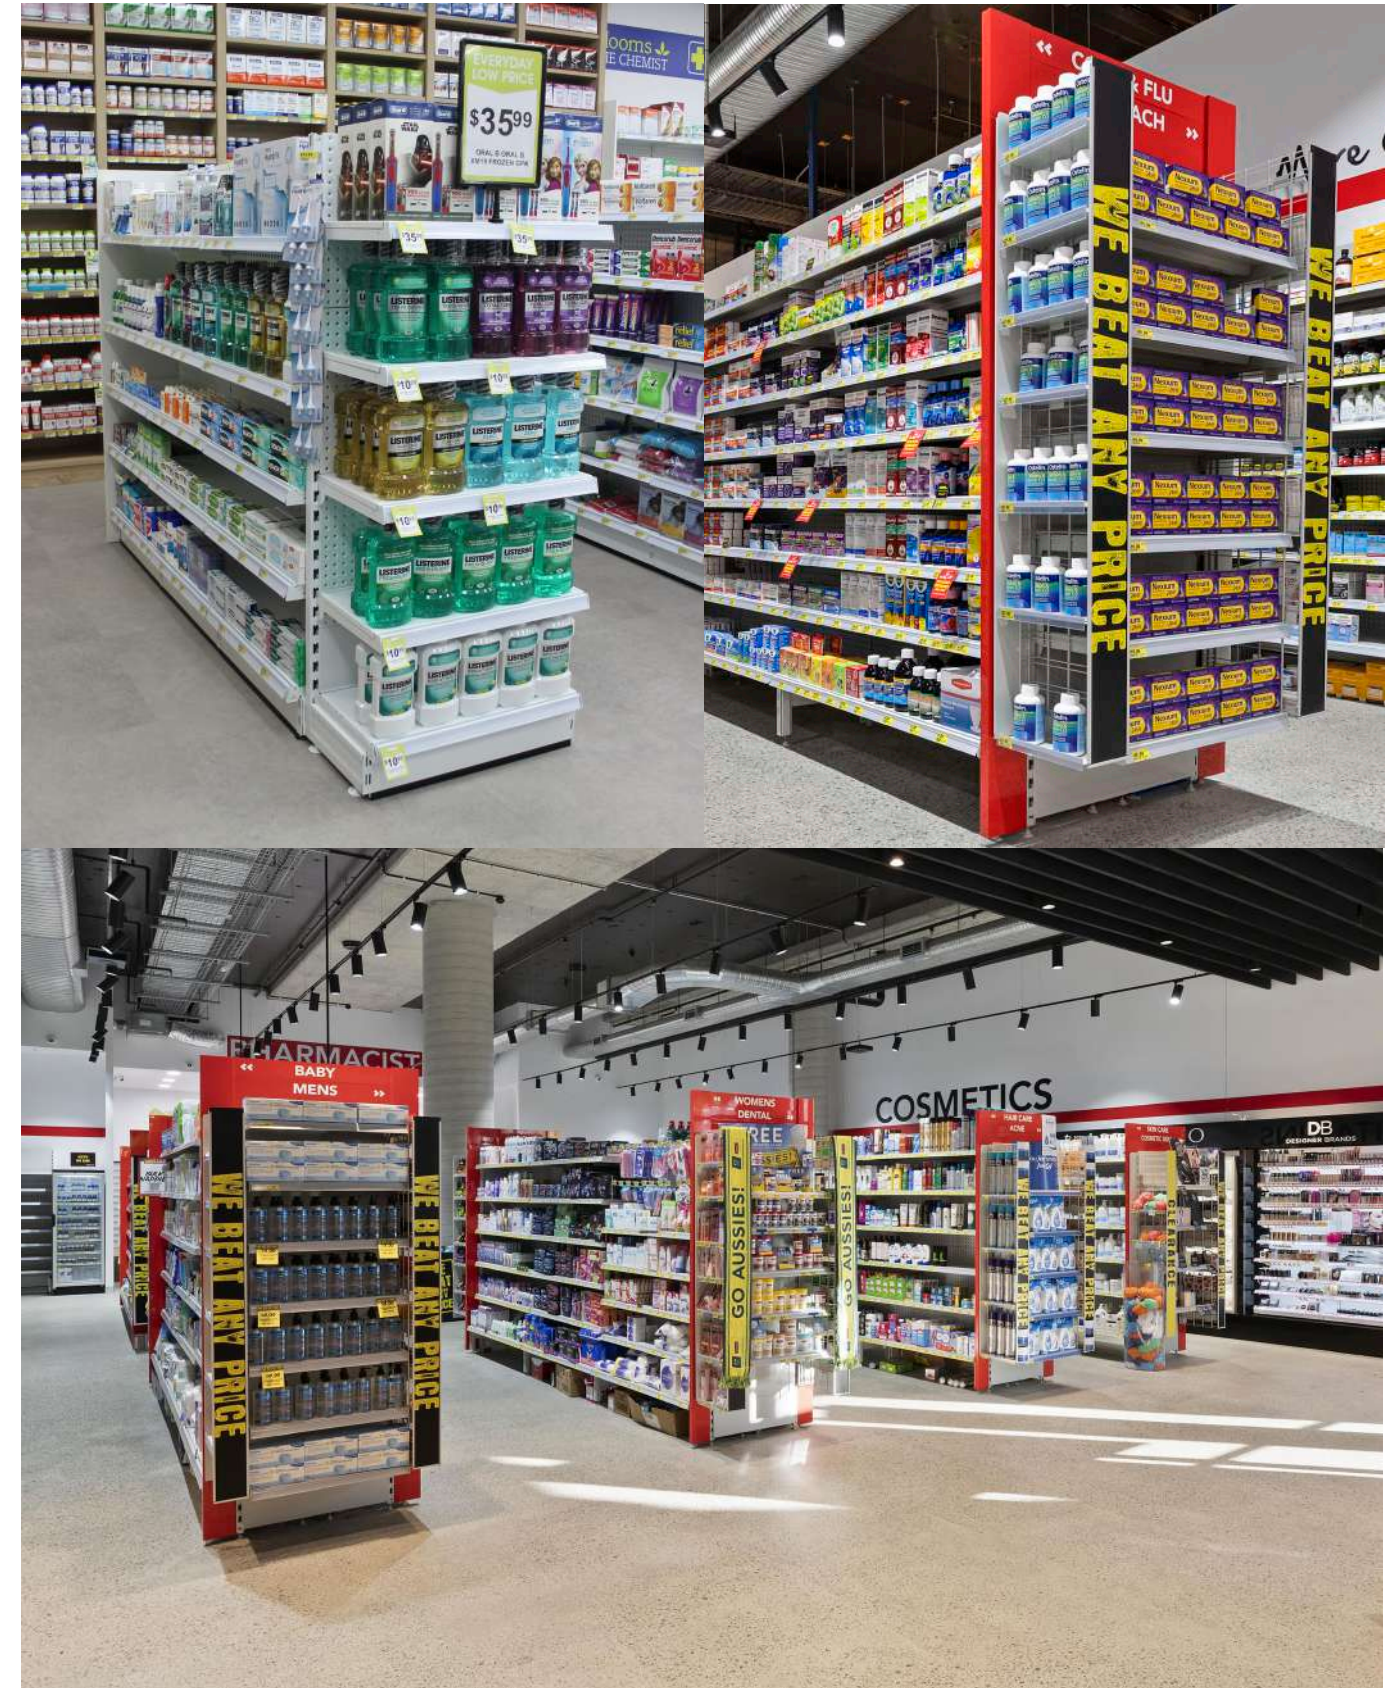

S-Mart Overview

S-Mart Applications - Supermarket & Convenience

S-Mart Applications - Pharmacy

S-Mart Applications - Discount, Variety, Fashion & Gifts

S-Mart Applications - Hardware & Automotive

S-Mart Shelving Bays - Single & Double Sided

- Get your shelving selection off to a headstart with our easy-to-order shelving bays
- We have already configured the bays, simply select your desired bay length and height

1. Choose your desired bay lengths.
2. Select your backpanel option (plain, volcano or slatwall)
3. Select your preferred colour (Gloss White or Matt Black)
4. Select single sided or double sided.
5. Choose your base shelf depth.
6. Select additional shelves

End Bays

- Flat End bays are used with double-sided gondola shelving bays
- Available with plain or volcano (perforated) backpanels
- Available in 2 x heights and 3 x bay widths

See page 134

Corner Bays

- Corner bays are perfect for maximising utilised space when used in a 90 degree corner inside your store
- Use with S-Mart single sided wall shelving bays

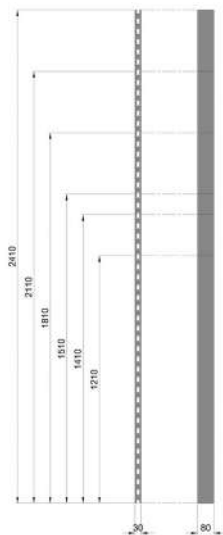

See page 138

S-Mart Mobile Shelving Units

- Did you know you can make your S-Mart shelving system mobile?
- Create displays that are easy to move around, enabling you to achieve a truly flexible display option.

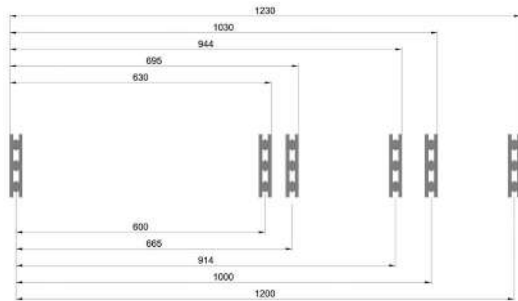

See page 140

Heights

S-Mart Gondola Shelving is available in six upright heights as standard. Choose from 1200, 1400, 1500, 1800, 2100 and 2400mm bay heights to create the perfect shelving display for you store.

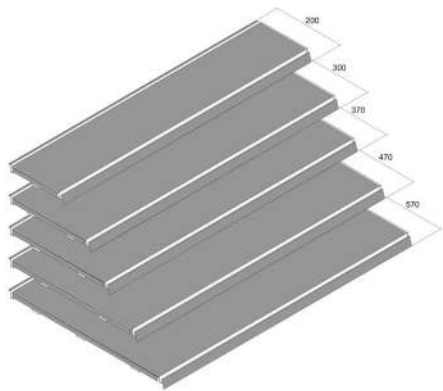

Note: Uprights can be cut in 100mm increments. Contact us for more information.

Bay Widths

Maximise your store's floorplan by selecting the right S-Mart bay for your store. Our shelving bays are available in 600, 665, 914, 1000 and 1200mm bay widths.

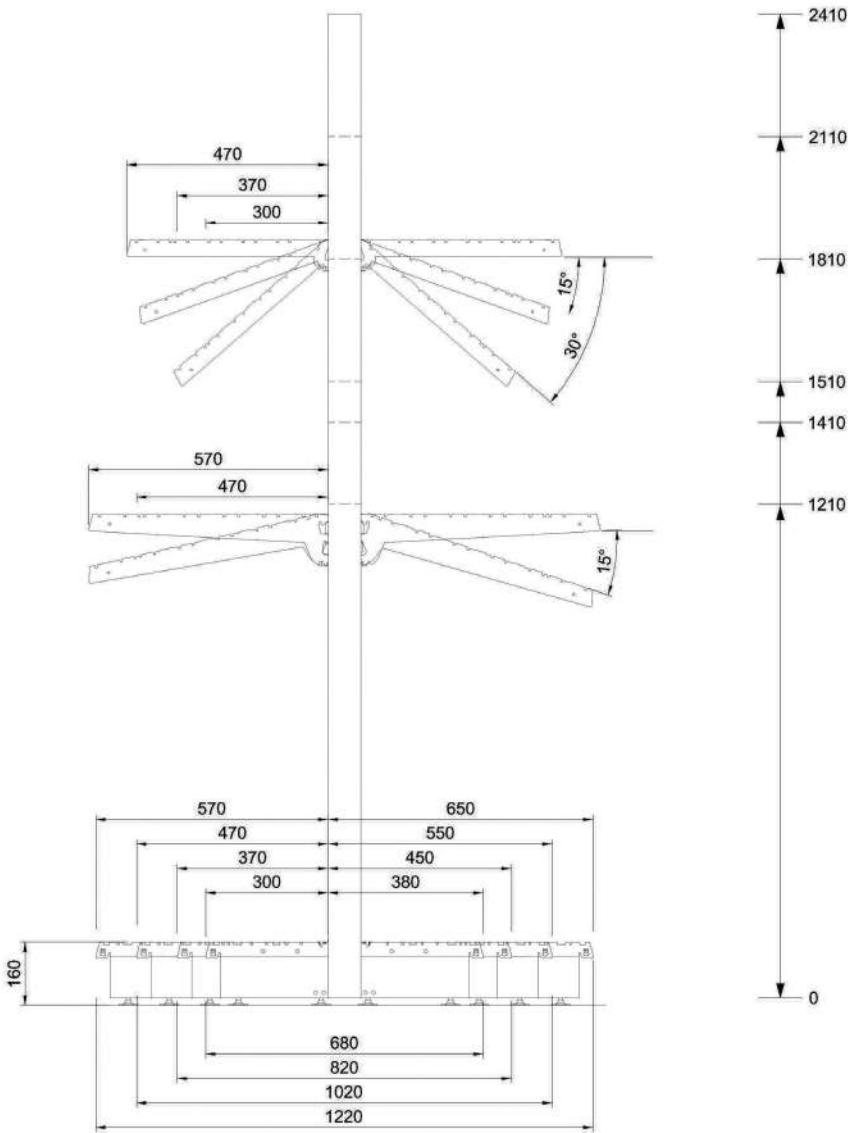

Note: Some configurations are not available for all bay widths and colours. See catalogue for more information.

Shelf Depths

With S-Mart Gondola Shelving, you can choose from the largest range of shelf depths to suit the products that you need to display. S-Mart shelves are available in 300, 370, 470 and 570mm depths as standard.

Note: 200mm and 770mm shelf depths are available for specific configurations. Contact us for more information.

Single Sided	
Base Shelf Depth	Footprint
300	380
370	450
470	550
570	650

Double Sided	
Base Shelf Depth	Footprint
300	680
370	820
470	1020
570	1220

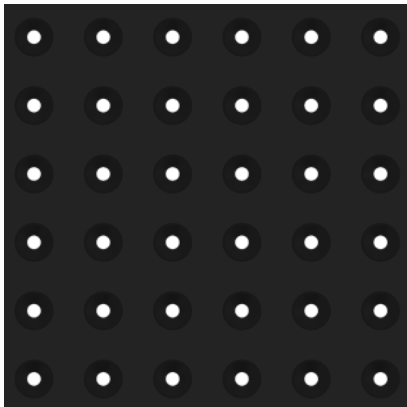

Backpanel Options

Plain Backpanel

The plain backpanel option adds a stylish aesthetic to all S-Mart Gondola Bay configurations. They are often used in heavy-duty applications such as liquor stores, where shelves are used for all bays.

Note: Not suitable for hangsell.

Volcano (Perforated) Backpanel

S-Mart volcano backpanels offer the perfect combination of flexibility and durability. The perforated pattern is suitable for a large selection of hangsell hooks and prongs. The S-Mart volcano backpanel offers unrivalled strength, with it's higher than industry standard 1.2mm panel thickness. The volcano hole configuration is far superior to traditional flat perforated backpanels, as it provides additional support for hangsell hooks and better overall rigidity of the backpanel.

Slatwall (Grooved) Backpanel

Create a unique display solution in your S-Mart Gondola Shelving with our slatwall backpanel option. The slatwall backpanel option enables you to use a wide selection of traditional slatwall accessories on your S-Mart Gondola Shelving. This includes hangrails, faceouts, wire baskets, shelves and much more.

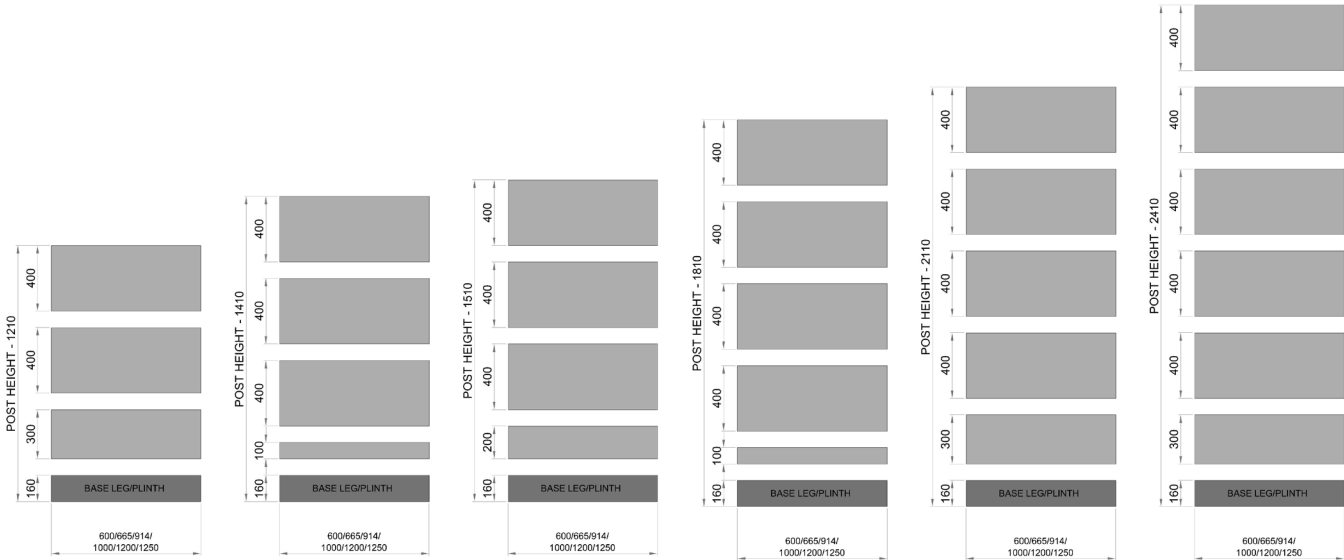

Using slatwall panels in your S-Mart Gondola Shelving is a stronger and easy-to-install option compared to traditional timber slatwall panels.

Backpanel Options

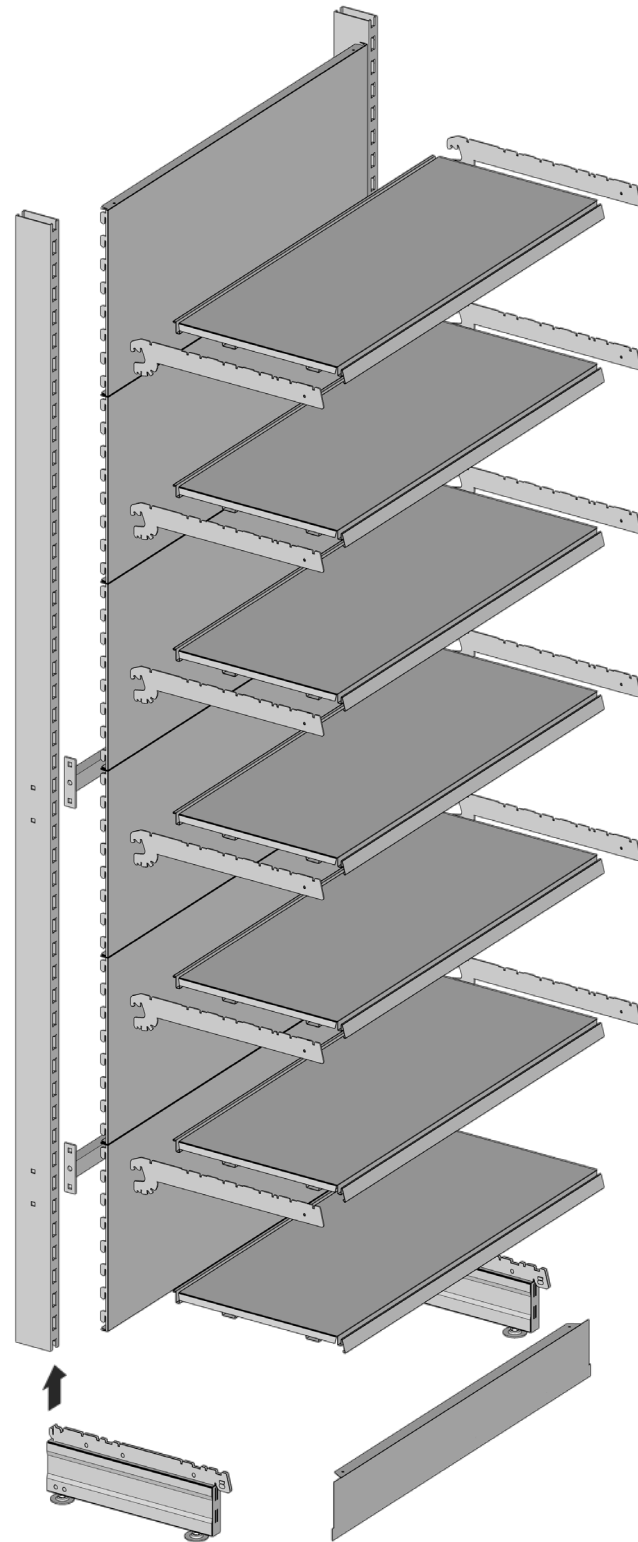

Custom Backpanel

Looking to stand out from the crowd? We also offer a range of stylish timber backpanel options for use with S-Mart Gondola Shelving. With an unlimited colour selection available, you can truly create a unique shelving display for your store.

Feature End Bays

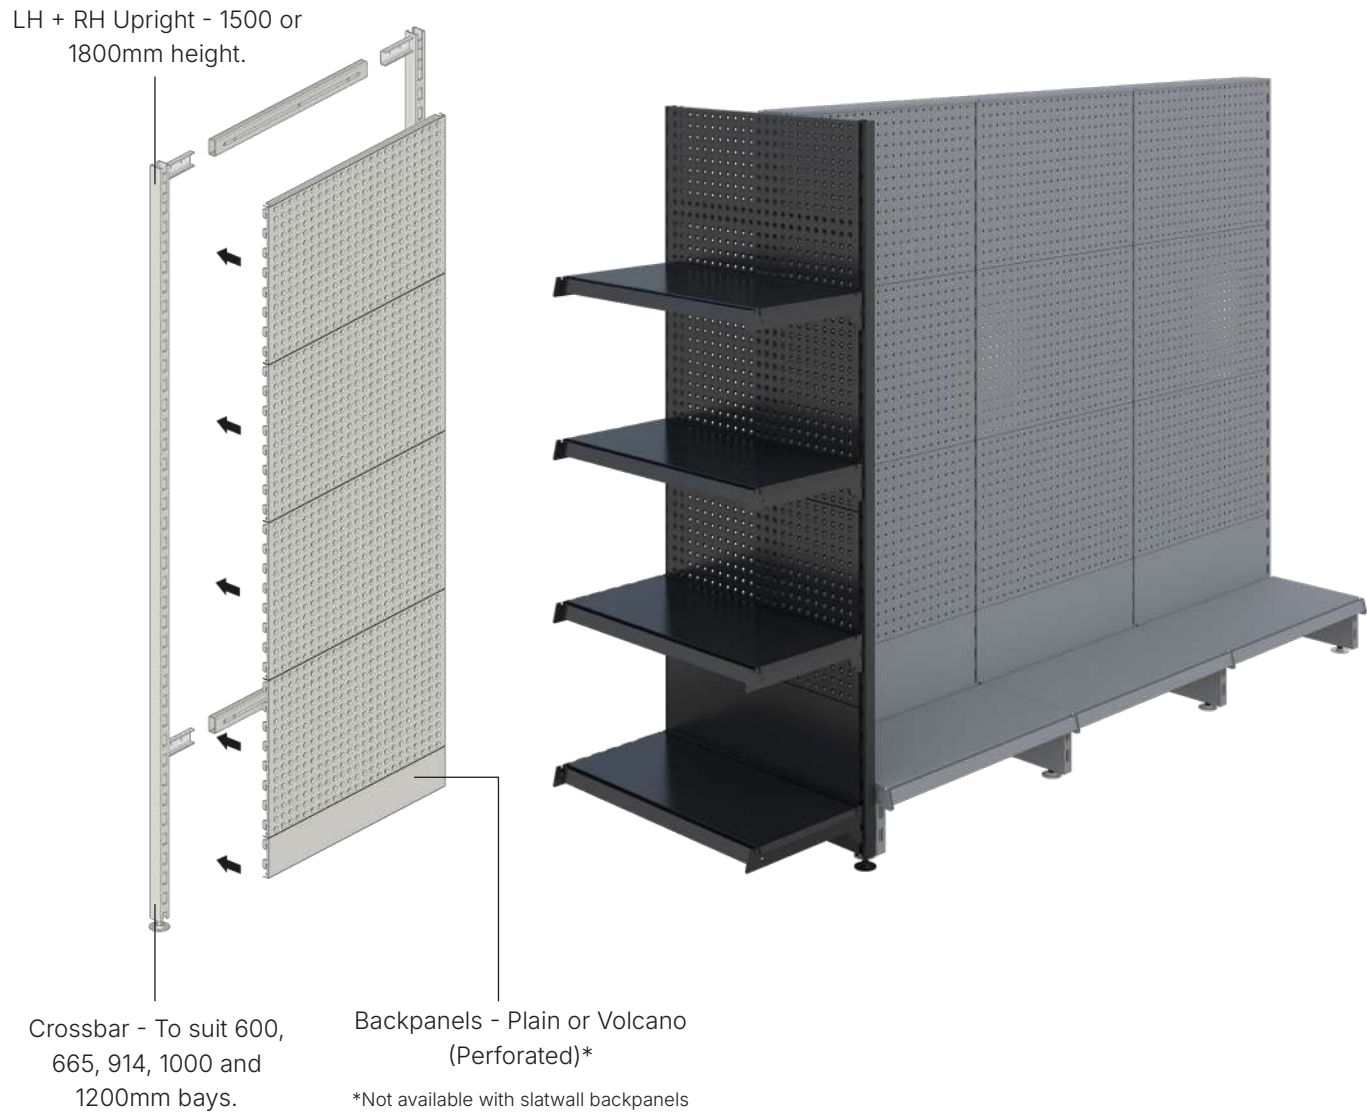

Our S-Mart Feature End Bays are essential for maximising the use of your gondola ends for promotional display.

Offering unlimited flexibility, you can use Feature End Bays to create a range of different display options, such as shelving displays, hangsell (with Volcano Backpanel option), or simply to cap the end of your double-sided gondola bay or for bulk stack displays.

S-Mart Feature End Bays are easy to install. The unit consists of a left-hand and right hand upright (1500 or 1800mm high), and horizontal crossbars to suit your choice of bay width (600, 665, 914, 1000 or 1200mm).

Other options available include Height Extensions to increase the height and Side Wings to optimise your Feature End Bay.

Start creating your eye-catching end displays today and watch your sales grow!

Internal Corner Bays

S-Mart Internal Corner Bays can be used together with S-Mart Single Sided Wall Shelving Bays to maximise unused space on 90 degree internal corners in your store.

*Note: must be used together with 2 x adjoining runs of S-Mart Single Sided Wall Shelving. Cannot be used as a stand-alone unit.

Note: Uses standard S-Mart Upright and Base Leg - 1 x additional upright/base leg required per corner bay.

Mobile Gondola Bays

Let’s make changing your shop layout a breeze!

With S-Mart Mobile Gondola option, you can move your shelving displays safely and efficiently anywhere in your store. Simply add our durable castor option to your selected S-Mart Gondola Shelving Bay configuration to turn your shelving into a versatile mobile display unit*.

- Ideal for:
- Pop-Up Stores
 - Shopping Centres
 - Mall Activations

*Note: S-Mart Gondola Bays must be fitted with tie-bars for use with mobile option.

Components - Metal Slatwall Backpanel

ADP Store Fixtures' S-Mart Metal Slatwall System is a robust, high-performance backpanel option designed for maximum flexibility, strength, and visual appeal in retail environments.

It is made up of a series of 100mm panels that interlock to create a heavy-duty slatwall grove. The S-Mart Metal Slatwall Backpanel supports a wide range of shelving and accessory options, making it ideal for dynamic product displays and frequent merchandising changes.

See our Slatwall Accessories (page 342-367) for a complete range of Slatwall fittings & accessories

Components - Timber Slatwall Backpanel

ADP's S-Mart Timber Slatwall System offers a stylish and functional display solution that combines strength with a premium, natural look.

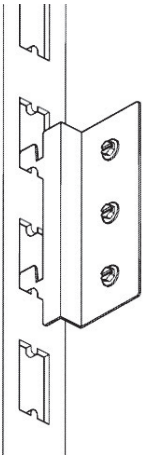

Available in a wide range of timbergrain and solid colour finishes, it allows retailers to align their shelving with store branding and interior themes. Compatible with standard slatwall accessories, the system provides flexibility for changing displays, while its durable construction ensures lasting performance. Ideal for creating warm, inviting retail environments, the S-Mart Timber Slatwall enhances both presentation and customer experience.

Base Shelf Depth (mm)		
300	225	
370	325	
470	335	
570	400	

The S-Mart Outrigger System provides the ultimate combination of display flexibility with storage capabilities. The heavy-duty overhead storage shelf allows you store overstock items without them getting lost out the back.

Weights & Capacities

Overall Bay Load Rating (Qmax)

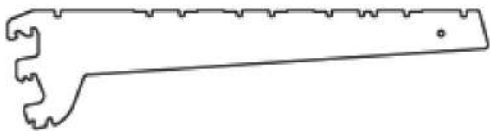

Maximum shelf loading consists of the sum of the base shelf weight plus total loading for all suspended shelves.

$$Q_{max} = (Q_1 + Q_2 + Q_3 + Q_4 + Q_5) + Q_6$$

Individual shelf load should not exceed the individual shelf load rating as listed below.

Permissible load is calculated for shelving height of 2210mm.

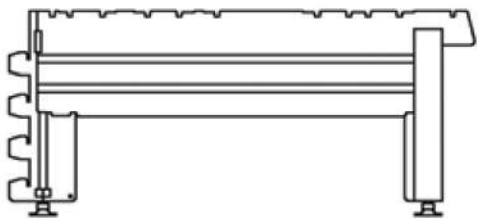

Cantilever Shelf Bracket 150kg

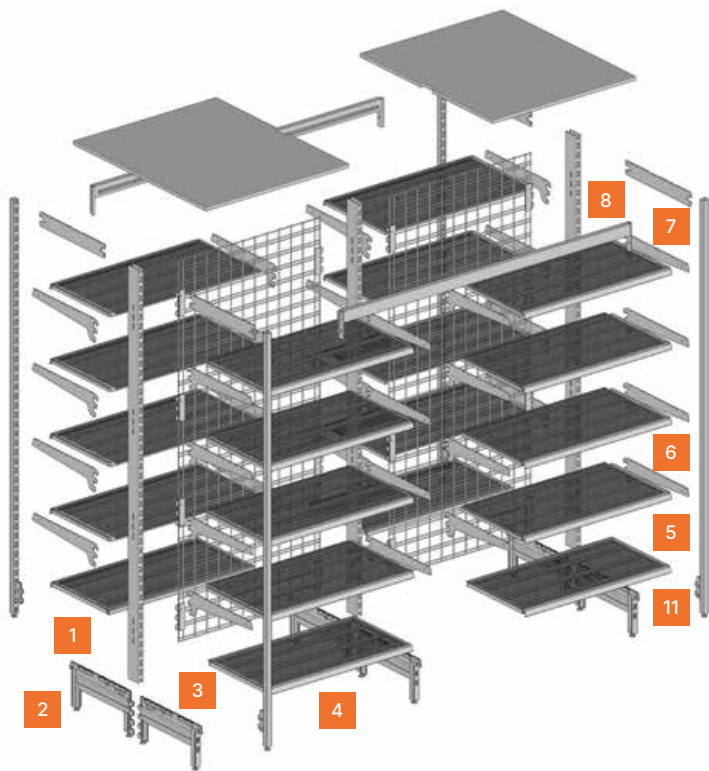

Cantilever Shelf Bracket 300kg

Base Shelf Depts 570mm

Convenience Store Equipment - Convenience Pod

- The CONVENIENCE POD by ADP provides a convenient solution for the store, service station or even a larger office to provide a basic food & hot drink option.
- This fully self-contained unit includes pre-wired electrical connection. All you need is to supply the power feed-in cable to connect to the power panel.
- Includes refrigerated self-service display unit, warming self-service display unit, automatic coffee and hot drink dispenser, microwave oven for rapid heating together with condiment and cup dispensers. See a full list of equipment on next page.
- Increase your sales to "grab'n'go" client or energize your employees with this aesthetically pleasing unit that can be customized to your decor selections.

S-Mart Shelving
Liquor

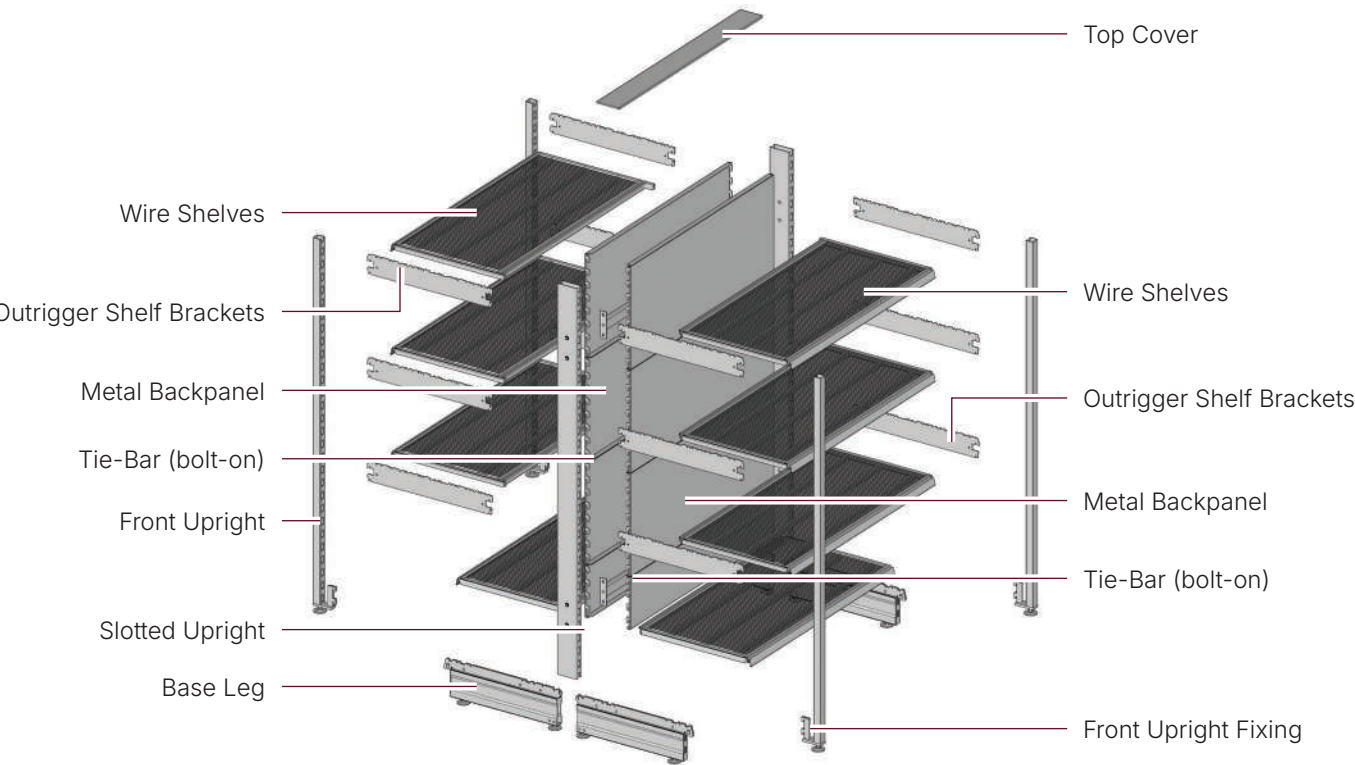

Introduction

Choosing the right shelving is the first step in any successful Liquor Store project. ADP's Liquor Outrigger Shelving is available in Gondola (Floor), Wall Shelving and End Bay configurations.

ADP S-Mart Liquor Outrigger Shelving is a proven, heavy-duty shelving system designed specifically for Liquor Stores. It offers the perfect combination of style and strength, and is sure to set your Liquor store apart

Available in 470mm (6 bottle) or 570mm (7 bottle) shelf depths, Liquor Outrigger Shelving has the flexibility to adapt to any store layout. It's unique modular design allows maximum adjustment of shelves and configuration to either single or double-sided shelving bays using the same components.

It is the only Liquor Shelving that provides unique 'back-panels' behind the shelves. These back-panels help to prevent bottles falling between the shelves, and are another design feature that gives Liquor Outrigger Shelving it's attractive appearance.

Benefits

- Upmarket, modern design to enhance store presentation
- Proven, heavy-duty shelving system designed specifically for Liquor Stores
- Flexible, modular construction to adapt to any store layout
- Full height back-panels to retain bottles
- Angled shelf lip suitable for clip-on data strip
- Integrated category signage solution
- 5-year warranty
- In stock

Gondola Shelving - Gondola Curved End Shelves

Gondola Curved End Shelves

- Now you can make a grand statement with the Radius Wire Shelves. Designed to fit perfectly onto the end of a Cantilever or Outrigger gondola, they provide scope for some stunning merchandising effects
- Can be used in-line with the gondola shelves or at different heights to provide another alternative display
- Can be retro-fitted onto other brand gondolas or onto the S-Mart Long Span shelving by adding an additional gondola upright
- Use different radius shelves to provide a “pyramid” effect on your gondola ends
- Radius wire shelves assist with traffic flow and customer navigation through your store

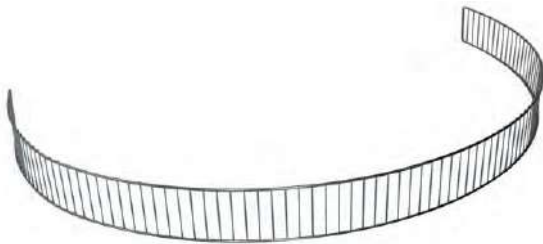

Gondola Shelving - Gondola Curved End Shelves

Base Shelf (with base feet)

Upper Shelf (with shelf brackets)

Curved Wire Shelf Front

Part No.	Component	To Suit Shelf Depth

Gondola Signage

Gondola Directory Sign

- Fits into standard 80 × 30mm slotted tubing uprights. Steel 'T' piece can be cut to required height
- Supplied with 'S' hooks to suspend the pre-cut signage panels
- Supplied with 8 blank signage panels that can be easily signwritten to suit store design
- Can be supplied with optional top signage panel to maximize branding opportunities
- Clear rigid plastic support strips provide vertical support for taller signs using material up to 2mm thick

Kit supplied with:

- Components for 'T' piece (Black powdercoat finish)
- Four large 'S' hooks (for top tube)
- Twelve small 'S' hooks (for suspending sign panels below)
- Eight plain sign panels with pre-drilled holes & radius corners. Matt Black finish
- OPTIONAL - Top signage panel for 1 or both sides.

Part No.	Height
AP21280	800mm (H) x 750mm (W)
AP21281	Signage disc with attachment - 250mm dia.

Gondola Directory Sign

- Tubular upright posts fits into standard 80 × 30mm slotted tubing uprights
- Horizontal tubes connect tubular upright posts and are supplied with 'S' hooks to suspend the signage panels (supplied by others)
- Allows for almost unrestricted visibility above gondola.

Part No.	Height
AP21290	Tubular upright post - 450mm (H)
AP21291	Horizontal tube with 'S' hooks - 914mm (L)

Gondola Signage

Magnetic 'U' Frames

- Steel open top frame allow for signage material up to 6mm thick
- Allows for creative shaped top designs
- Magnetic feet attach directly to metal top caps

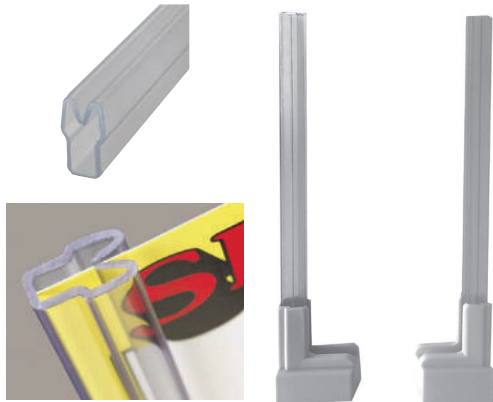

Part No.	Depth
AP21265/06	600
AP21265/09	900

Magnetic Corner Signholder

- Rigid signage panels up to 3mm thick are retained in the slot of this simple signage solution

To suit 2400mm High Wall Bays		
AP9773/470BK	600 × 2430	470
AP9779/470BK	700 × 2430	570
To suit 2400mm High Wall bays with Flap Doors (pictured)		
AP9779/470BK	600 × 2480	470
AP9779/570BK	700 × 2480	570
AP9778/470BK	600 × 2630	470
AP9778/570BK	700 × 2630	570

Wall Shelving - Accessories

Overhead Flap Doors

- Melamine flap doors for overhead storage of loose overstock items on top shelf
- Door is self supported by flap arms when accessing top shelf
- Provides brilliant branding opportunities for suppliers
- Add on category signage with our Sign 'C' Channel (available separately - see below)

Part No.	Dimensions (L x H)
AP40776	910 × 400 Centre Flap Door
AP40777	944 × 400 Flap door for left & right ends with melamine end panels (ordered separately)

Signage 'C' Channel - Suit Flap Doors

- Sheetmetal 'C' channel for category signage, to attach to flap doors, back panels or outrigger uprights
- Can be screw fixed or attach with double sided tape

Part No.	Dimensions (L x H)
10100-01-07	910 × 100

Signage 'C' Channel - Suit Flap Doors

- Black sliding door sets for storage on bottom shelf of outrigger bays

Part No.	Dimensions (L x H)
10053-01-01	914 × 400

Premium Wall Displays

Crossbar for Angled Bottle Display

- Crossbar with angled bottle holders for promotional or premium wine display
- Hooks into shelving uprights
- Crossbar available in 2 depths, depending on where you want to display your premium bottles. When using the deeper crossbar, you can use a 300mm deep shelf above for more product - this will give you premium display with backup stock above
- Bottle holders (purchased individually) are removable so that you can spread out the display

Part No.	Dimensions
AP40184	914 × 160 (D)
AP5226	914 × 300 (D)
AP5131	Sloping Bottle Holder - Black finish

Hook-On Signage 'C' Channel

- Very versatile and simple installed system
- Hooks onto the top of any upright (Outrigger & Longspan) or in front of back panels on top of the gondola system

Part No.	Bay Length	Sign Height
AP40751MB	914 (Use on 914mm Gondolas or Longspan bays)	100
AP40752MB	914 (Use on 914mm Gondolas or Longspan bays)	300
AP40754MB	1000 (use on 1000mm Gondola bays)	100
AP40755MB	1230 (use on 1200mm Longspan bays)	100

Wall Shelving - Premium Lockable Wall Shelving Bays

- Many liquor retailers are enjoying the benefits of prominently displaying their valuable spirits with the peace-of-mind of knowing that they will be secure from opportunistic theft
- Glass sliding door kits including top and bottom beams and glass doors with track attached for ease of installation
- Lockable doors slide easily on a quality aluminium roller track system
- Designed to be easily installed on new or existing S-Mart outrigger wall bays
- You can select from our range of standard glass door heights. Additional sets can be customised to secure your entire display
- Order melamine end panels separately to block off the end of the shelving run

Timber Box for Angled Bottle Display

- Fits into standard shelving uprights using 470mm shelf brackets and "U" channels mounted underneath
- 8-compartment fabricated box in melamine or plywood finishes

Part No.	Dimension
AP40748	914 × 400 × 55 Includes bracket set for mounting to uprights

Wall Shelving - Glass Door Security Wall Shelving

We have developed the following standard door heights to best suit the display of bottles (Door sizes are internal opening height):

1550mm Standard Wall Bay

- Use in standard wall bay, provides security for 4 shelves, leaving base shelf open

Part No.	Description	
AP40769/15	Set of glass doors & beams	914mm bay
AP9769/15	Set of glass doors & beams	1000mm bay

Design Considerations

- Melamine end panels can be provided to close off the ends of glass door bays (see next page)
- If you wish to stop your glass door bays in the middle of a wall run, you can close off the end so that access can't be made into the security area from the open shelving by either of the following methods:
 1. Use full melamine end panel. For this option, you will need to begin another Starter Bay adjacent to the security section.
 2. Purchase 2 Outrigger Shelf Brackets per shelf level and use these to restrict access.

1950mm Standard Wall Bay

- Use in standard wall bay, provides security for 5 shelves

2600mm Standard Wall Bay

- Double set of sliding doors on extended height wall bays - provides full security for 6 shelves, incorporates intermediate horizontal beam above lower 2 shelves

Part No.	Description	
1950mm Standard Wall Bay		
AP40769/19	Set of glass doors & beams	914mm bay
AP9769/19	Set of glass doors & beams	1000mm bay
2600mm Standard Wall Bay		
AP40769/26	Set of glass doors & beams	914mm bay
AP9769/26	Set of glass doors & beams	1000mm bay

800mm Standard Wall Bay

- Provides security for 2 shelves

Part No.	Description	
AP40769/15	Set of glass doors & beams	914mm bay
AP9769/15	Set of glass doors & beams	1000mm bay

Feature Displays - Display Table Concept

- Proven to be a highly successful tool to drive sales in Liquor stores
- Create a stunning focal point in your store.
- Ideal for promotions, tasting nights, product features and more
- Stylish laminated timber benchtop
- Maximise selling/stock capacity below benchtop
- LED Shelf Lighting to all shelves
- Flexible, modular design

Feature Displays - Display Table Concept

- Choice of 1, 2 or 3 bay modules with 2 ends
- Stylish laminated timber benchtop
- LED Shelf Lighting to all shelves

AP9782	850 × 850	1200	16

Displays/Stands - Liquor Stands

Giftware stand with timbershelves & trim

Mobile trolley with feature display top

We can produce custom display stands to suit your individual requirements and to fit in with your design brief.

Our large range of standard components can be put together in creative ways and combined with our customisation resources to produce your desired outcome.

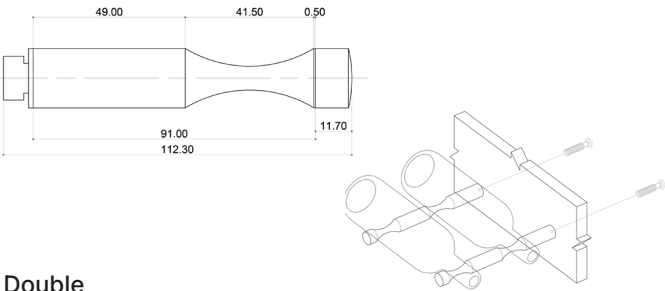

Wine Pegs

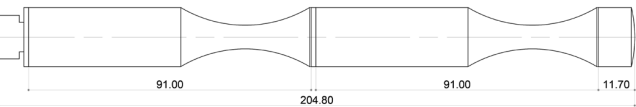

Wine Pegs

- Wine Pegs present an amazing opportunity to create a unique method of displaying premium wines horizontally to create a boutique atmosphere.
- Available in “Label-Forward” or “Cork- Forward” configurations, the Wine Pegs can be mounted onto solid backing panels of various materials.
- The Wine Peg Slider wall system allows for adjustable spacing of “Label Forward” wine bottles with varying densities for seasonal fluctuations.
- The ADP Design Team will be pleased to assist you in developing a configuration that will suit your space and design requirements.

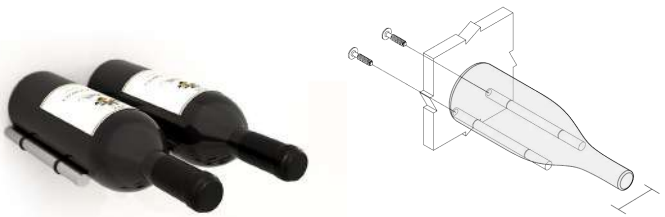

Single

Double

Supplied with bolts to fix on behind a melamine wall panel or with sliding fittings to fit into the “Wine Peg Slider” wall panelling system.

“Label-Forward” Wine Peg Slider

- This amazing panel-based system allows for some creative ways to display your wine collection in all manner of spaces.
- The panels are design to hook onto the wall with heavy-duty aluminium split battens so that they can be lifted off to make alterations if required.
- You can adjust the number of pegs according to the space requirements of your collection.

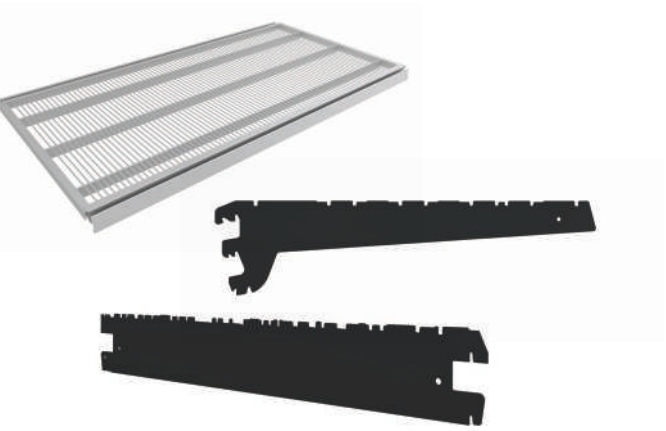

Part No.	Description
AP790	Single. Sold as pair
AP791	Double. Sold as pair

“Cork-Forward” Wine Peg Slider

Part No.	Description
AP792	Sold as pair

AP21291	Horizontal tube with ‘S’ hooks - 914mm (L)

S-Mart Shelving

Liquor Counters

- The Counter System by ADP is specifically designed for the requirements of a small to medium liquor store operation
- Totally modular construction allows you to select the various units that you require and place them in a configuration to meet your needs and available space. Length of individual modules can be varied to your specific needs
- Choose from basic open shelving modules to lockable drawers for cigarette storage or cabinets with glass front display for miniatures or valuable merchandise
- Once you have your layout established, we program the sizing and provide all of the remaining components – front panels, counter tops and base plinths - to bring your project together
- Modules are delivered fully assembled, with a custom-manufactured ladder frame. This allows for simple site installation while providing open space underneath the cabinet to run electrical cables, etc

Counter Components

1. Cupboard module (includes open top shelf for cash drawer, paper bags, etc.)
2. Bank of 3 drawers, with single lock. Includes open top shelf
3. Corner shelving module, with open adjustable shelves
4. Optional double-action swing doors
5. Counter top - choose from our standard heavy-duty flooring vinyl top or selected laminate finishes

Here are the simple steps to ordering your liquor counter:

1. Send through your required counter layout with the different modules.
2. Select the cabinet colour. Standard colour – BLACK melamine.
3. Select the top finish. Standard finish Grey-patterned hard wearing vinyl with 3mm thick aluminium edging.
4. Select the plinth finish. Standard finish – BLACK
5. Select additional specific features required. For example, we can provide double-action swing doors to clearly delineate the counter area while providing easy access to customer service staff.
6. You can select from the standard plain front or use this area to provide a fully-functional selling area with shelving or hangsell for cross-merchandising opportunities.

Premium Wine Unit

Open Shelving Module

- Open Fixed top shelf - 150mm opening
- Adjustable shelves x 2 off
- Includes allowance for front panel as required
- Colour - BLACK melamine
- Cabinet Height - 850mm
- Overall Height (incl. plinth & top) - 980mm
- Cabinet Depth - to specification

Part No.	Length
AP9724/06	Up to 600mm
AP9724/09	Up to 900mm
AP9724/12	Up to 1200mm

Open Shelving Module

- Open Fixed top shelf - 150mm opening
- Pair of hinged doors to cupboard section - 1 adjustable internal shelf
- Includes allowance for front panel as required
- Colour - BLACK melamine
- Cabinet Height - 850mm
- Overall Height (incl. plinth & top) - 980mm
- Cabinet Depth - to specification.

AP9720/06	Up to 600mm
AP9720/09	Up to 900mm
AP9720/12	Up to 1200mm

3-Drawer Module

- Open fixed top shelf - 150mm opening
- Bank of 3 drawers with central locking to lock all drawers with 1 key
- Includes allowance for front panel as required
- Colour - BLACK melamine
- Cabinet Height - 850mm
- Overall Height (incl. plinth & top) - 980mm
- Cabinet Depth - to specification
- Optional divider & pusher system for secure cigarette storage.

Part No.	Length
AP9721/06	Up to 600mm
AP9721/09	Up to 900mm

Premium Wine Unit

Corner Open Shelving Module

- Adjustable shelves x 2 off
- Colour - BLACK melamine
- Includes allowance for decorative front panel as required.
- Cabinet Height - 850mm
- Overall Counter Height (incl. plinth & top)- 980mm
- Cabinet Depth - to specification

Part No.	Length
AP9725	900 X 900mm

Showcase Module

The showcase module presents a simple way of securely displaying high-value merchandise in an appealing way at the point-of-sale. Ideal for miniatures & giftware or a premium product feature.

- LED strip lighting up 2 front sides & across top
- Sliding, lockable doors behind
- Cabinet Height - 850mm
- Overall Counter Height (incl. plinth & top)- 980mm
- Cabinet Depth - 580mm
- Glass front module with 2 x adjustable glass shelves behind
- Cabinet colour - BLACK melamine

Part No.	Length
AP9723/09	Up to 900mm
AP9723/12	Up to 1200mm

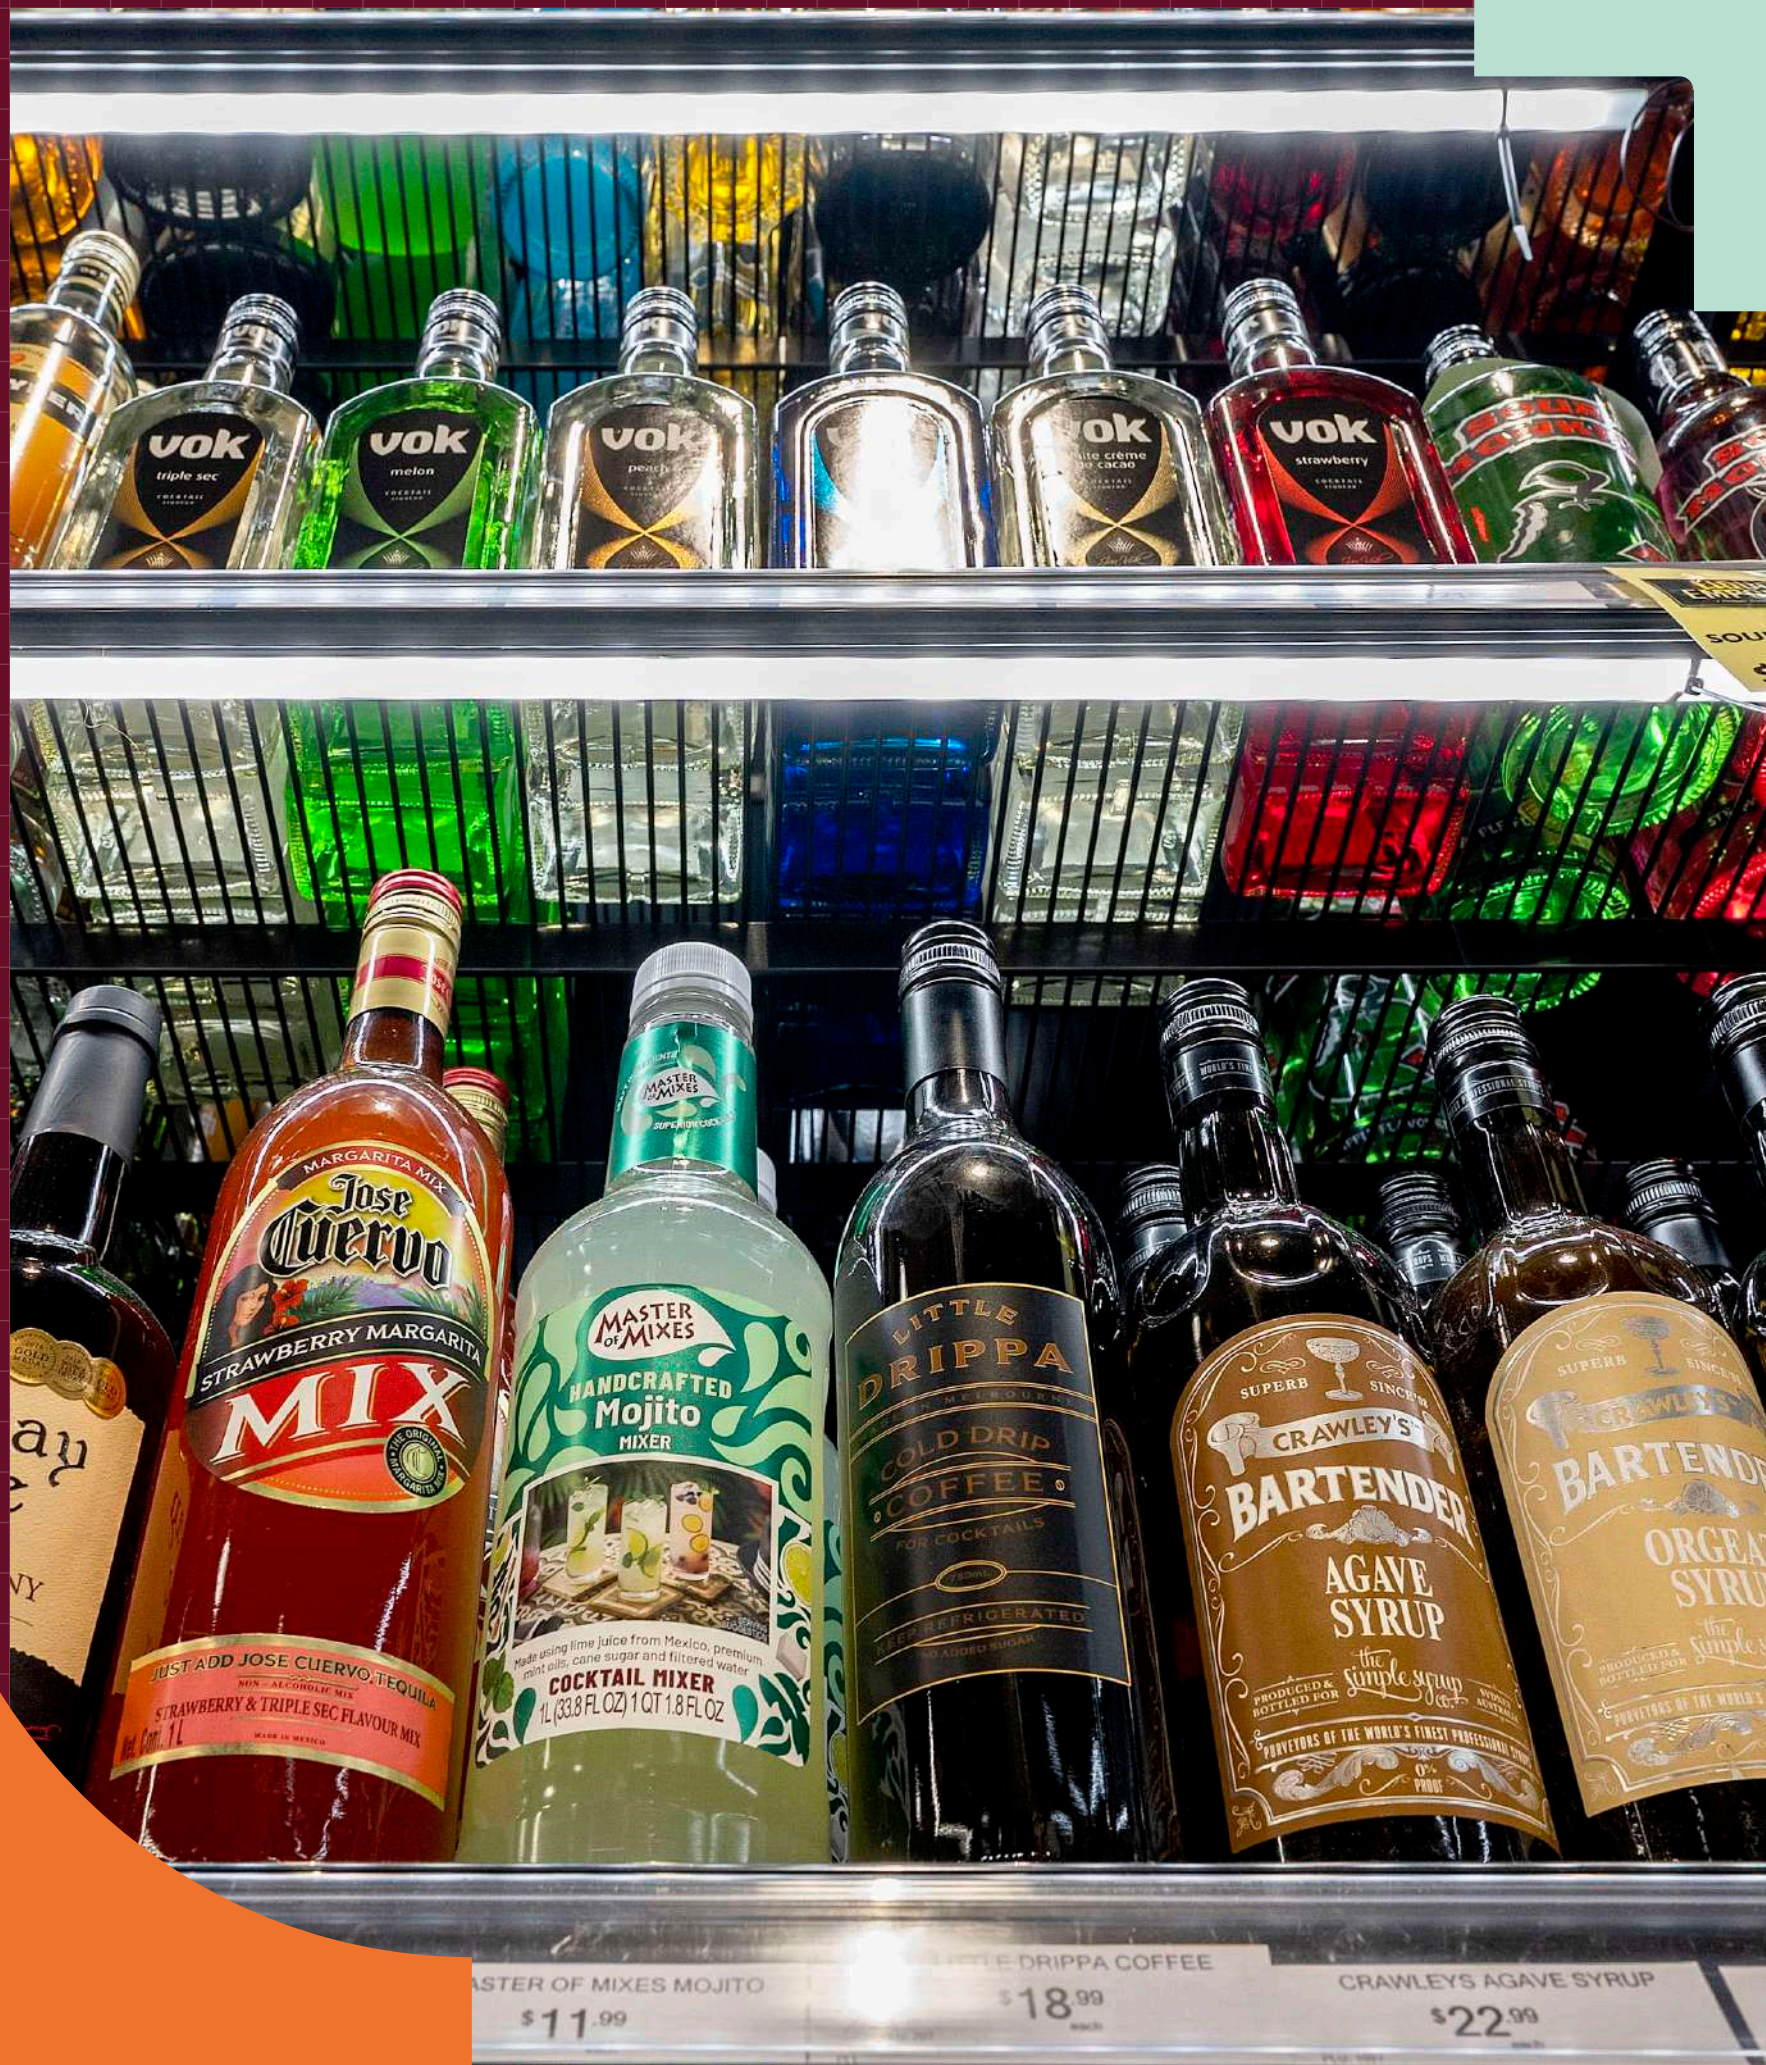

Display Front Shelving

Turn your counter into an impulse selling machine with our front merchandising panel options. Nominate your selling area and we can incorporate the recessed Display Front system with an overhanging top.

Your typical Display Front Shelving area includes the following:

Part No.	Length
AP9735/12	Up to 1200mm
AP9735/24	Up to 2400mm

S-Mart Shelving

LED Lighting

LED Shelf Lighting System

- Shelf illumination is a sure way to increase merchandise sales by presentation of your products in the best possible light
 - You can benefit from our years of experience in this field, providing shelf lighting solutions that are easily installed as “plug & play” without any requirement for electrical contractors
 - INWI Woodline (Self-adhesive)
 - INWI Magline (Magnetic)
 - INWI Standard (Concealed within uprights)
- Premium 24V system for reliability in continuous use
 - You get to select from our wide range of systems that provide a complete and universal solution, all based on a common luminaire with a selection of power sources and feed-in tracks that provide full flexibility for shelf changes without cable re-routing
 - We are pleased to offer 3 systems to make your shelf illumination project simple to install with a great end result that will maximize your Return on investment.

No lighting

With shelf lighting

LED Snap Frame - Outrigger Shelving

- Premium quality LED light strip in aluminium casing with clear protective cover
 - Supplied with lead and universal Mini-plug to attach to any of our power rail systems
 - Cable lengths - 200mm (for Outrigger system using concealed track) or 700mm (for running cable to rear of shelf - see Cable Routing Magnet below).
- Custom lengths of up to 1000mm are available to special order).
 - Standard LED specifications - 4000K/7.2W/mtr (Other colours & intensities are available to order)
 - Supplied with super-strong rare earth block magnets that will fix securely to metal & wire shelves. Magnets are supplied loose and slide into retaining channel

Part No.	LED Length	Cable Length	To Suit Shelf Lengths
AP40854/06S	570	200	600 x 665
AP40854/06L	570	700	600 x 665
AP40854/09S	870	200	914 x 1000
AP40854/09L	870	700	914 x 1000
AP40854/12S	1170	200	1200 x 1250
AP40854/12L	1170	700	1200 x 1250

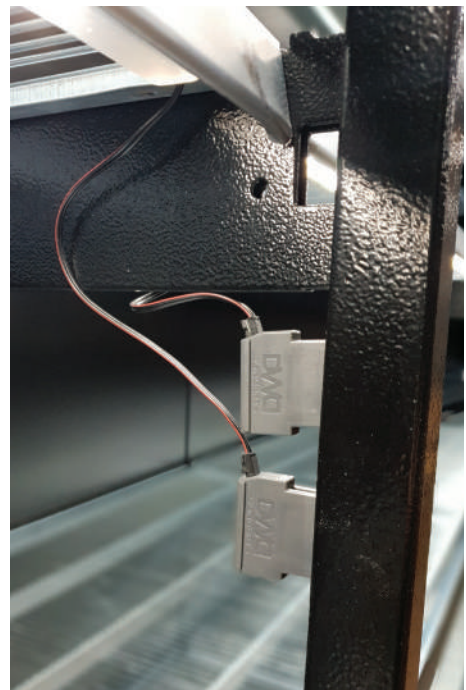

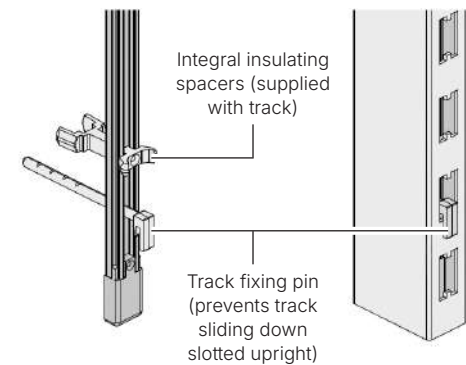

Cable Routing Magnet (AP40873BK)

- Use to support cables on shelf brackets
- Size - 13 x 8mm

How many LED drivers will I need?

Simple, calculate the power requirement using the following formula:

- Power (per shelf) = Actual length of LED strip (mtrs) x Watts/mtr x 1.15 (15% safety margin)
- Example (AP40854/09) = 0.83m x 7.2 x 1.15 = 6.87
- Using a 150VA Driver, you will safely be able to power 22 light strips (150 / 6.87)

1. INWI STANDARD - Concealed Electrified Track

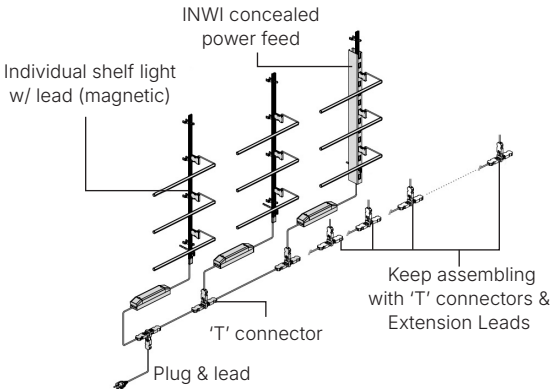

- The INWI STANDARD system is surely one of the most innovative solutions for interchangeable shelf illumination. It offers all the benefits of concealed wiring and an ingenious plug system that inserts through the tubing slots.
- Various profiles are available with different spacers to fit into rectangular & square tube. Supplied with fixing pin to lock onto the slot in the tubing and prevent the track sliding down.
- Available in single or double-sided versions - double-sided provides the ability to feed both sides of a gondola off a central upright

Part No.		Length
Suit 30 x 30mm Tubing		
AP40861/2M	Single-sided	2000
Suit 80 x 30mm Tubing		
AP40860/2M	Single-sided	2000
AP40862/1M	Double-sided	1000

2. INWI STANDARD Plug

- Fits securely through slots in the tube and into the track track inside
- Accepts Mini-plug fitting on LED strips (3)

	Part No.

*Suitable for use with 1500mm height double-sided S-Mart Shelving Bays only

Cigarette Cabinets

- Our Cigarette Storage solution provides a convenient method of large-capacity storage that meets regulatory requirements
- Available with remote-controlled aluminium roller shutter that completely secures the complete unit
- Standard unit provides for approximately 100 product facings
- Sliding, lockable doors for general day use
- Available with base storage drawers for bulk stock
- Standard unit is supplied with 8 metal shelves with “toothed” plastic fronts and dividers - in sloping configuration, stock will always be at the front of the shelf

Night Mode - Roller shutter closed

Day Mode - Roller shutter open/sliding, lockable doors in operation

Cigarette Cabinet Components

1. Remote-controlled aluminium roller shutter - simple press button operation to open or close
2. Overhead flap door that conceals shutter roll - simple lift up operation for access. Door face may be incorporated into your store branding theme with the application of graphics
3. Sliding, lockable doors for general day use. Aluminium composite material to provide rigidity in a wide selection of colours
4. Base storage drawers for bulk stock
5. Sloping metal shelves incorporating clear plastic shelf fronts and dividers for ease of merchandising

Cigarette Cabinets

Cigarette Cabinet with Lockable Sliding Door

- Cigarette cabinet with lockable sliding doors only (excludes roller shutter)
- 8 x sloping cigarette drawers including ‘toothed’ plastic fronts and dividers
- Capacity for approximately 100 facings of cigarette packets
- Includes base storage drawer for bulk stock

Part No.	Length	Depth	Height
CST167	986	520	2400

Cigarette Cabinet with Lockable Sliding Door and Manual Shutter

- Cigarette cabinet with lockable sliding doors and manual roller shutter
- Secure 2-stage theft protection
- 8 x sloping cigarette drawers including ‘toothed’ plastic fronts and dividers
- Capacity for approximately 100 facings of cigarette packets
- Includes base storage drawer for bulk stock

S-Mart Shelving

Produce Displays

Produce Bunks Introduction

ADP's Produce Bunk concept is a series of modular pieces, that come together to form a Produce Display that is perfectly tailored to each store.

Designed to make your range stand out for it's freshness, our Produce Bunks draw the eye to the merchandise and form a seamless shopping experience for your customer.

From a Store Manager's perspective, each module is flexible and can be adjusted to meet the requirements of seasonal changes and weekly adjustments in stock levels. The lower part of each module can be used as a capacious storage area for bulk stock, or as additional display for more selling opportunities.

Produce Bunks Benefits

- The ADP Produce Bunk design provides you with a systematised, modular approach for quality presentation.
- Many decor options are available- from solid timber in raw or stained, hard-wearing vinyl planks or laminates, enabling you to create the perfect design for your store.
- Powdercoated metal front shelf lip suitable for applying magnetic ticketing strip.
- Create the perfect Produce Display to suit your space. The modular design achieves commonality for double-sided (island) displays, single-sided (wall) displays, in addition to internal and external corner options.
- Easily shipped, with greatly simplified installation on-site compared to traditional timber produce displays.
- Use space below as a high-capacity bulk storage area, or as additional display area for increased sales.

Produce Bunks Overview

Produce Bunks Overview

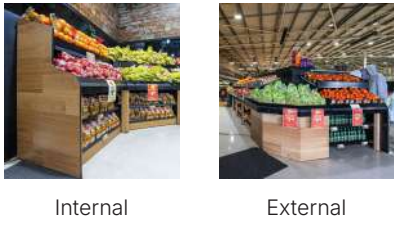

1 Choice of Single or Double Tier

2 Flat or Pyramid (Angled) End Bays

3 Timber infill panels in colour of your choice

4 Internal and External Corner Options

5 Raised shelf lip to retain crates (suitable for use with magnetic price label holders)

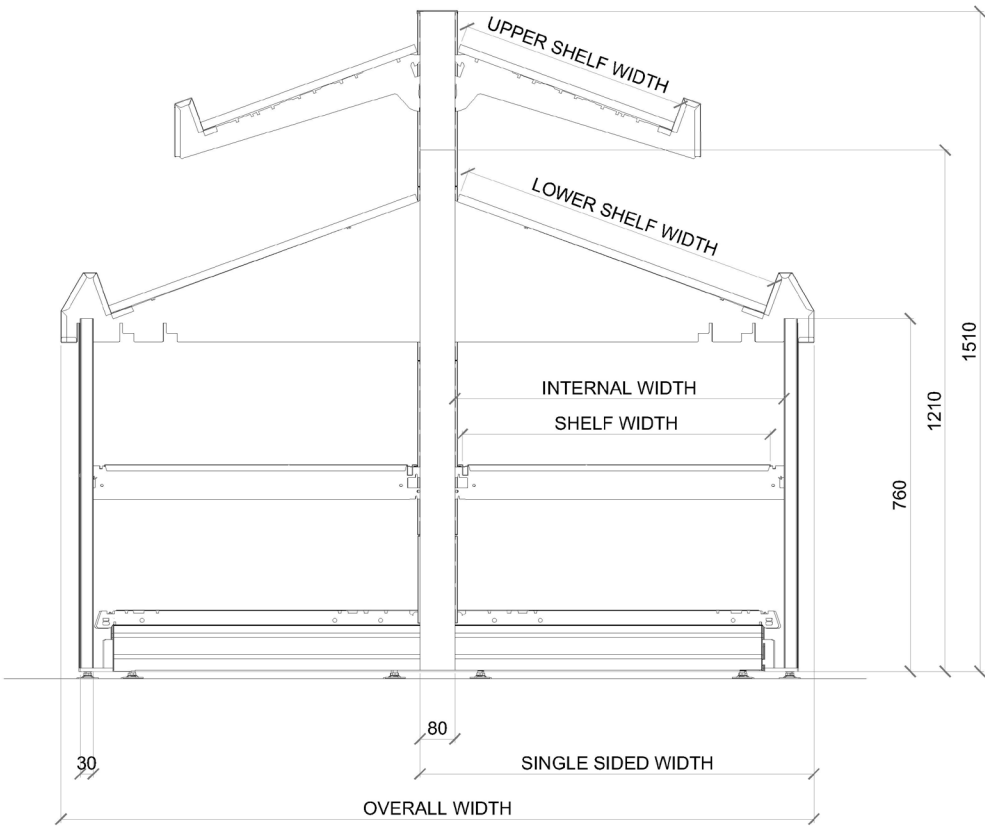

6 Shelves underneath Produce Display offer high-capacity bulk storage or additional display opportunities (timber infill panel available as an option).

7 Replaceable Graphic Backpanel Option

S-Mart Table

The S-Mart Table System from ADP provides a truly modular and flexible table presentation system.

It has a modern but timeless appearance due to its understated design based on a simple and modular metal frame and your selection of top materials and accessories.

Tables can be used as a stand-alone display or in a continuous line. As a standalone display, they provide the ideal vehicle for in-store seasonal promotions or cross-merchandising.

1

Choose your table size

- 1130Lx900Wx910H
- 1430Lx900Wx910H

2

Timber finishes

Choose your top and matching side shelf timber finishes

Available in Black or Sublime Teak as standard, other colours available on request.

3

Frame colour

Choose from Gloss White (GLW) or Matt Black (MB) colours for your table frame.

4

Adustable height side shelf with straight or sloping/angled shelf position

5

Adjustable Internal Shelf included as standard

6

Unlimited configurations - choose a single table or join tables together to create your perfect merchandising display

7

Perfect for:

- Liquor Stores
- Supermarkets
- Fashion
- Discount

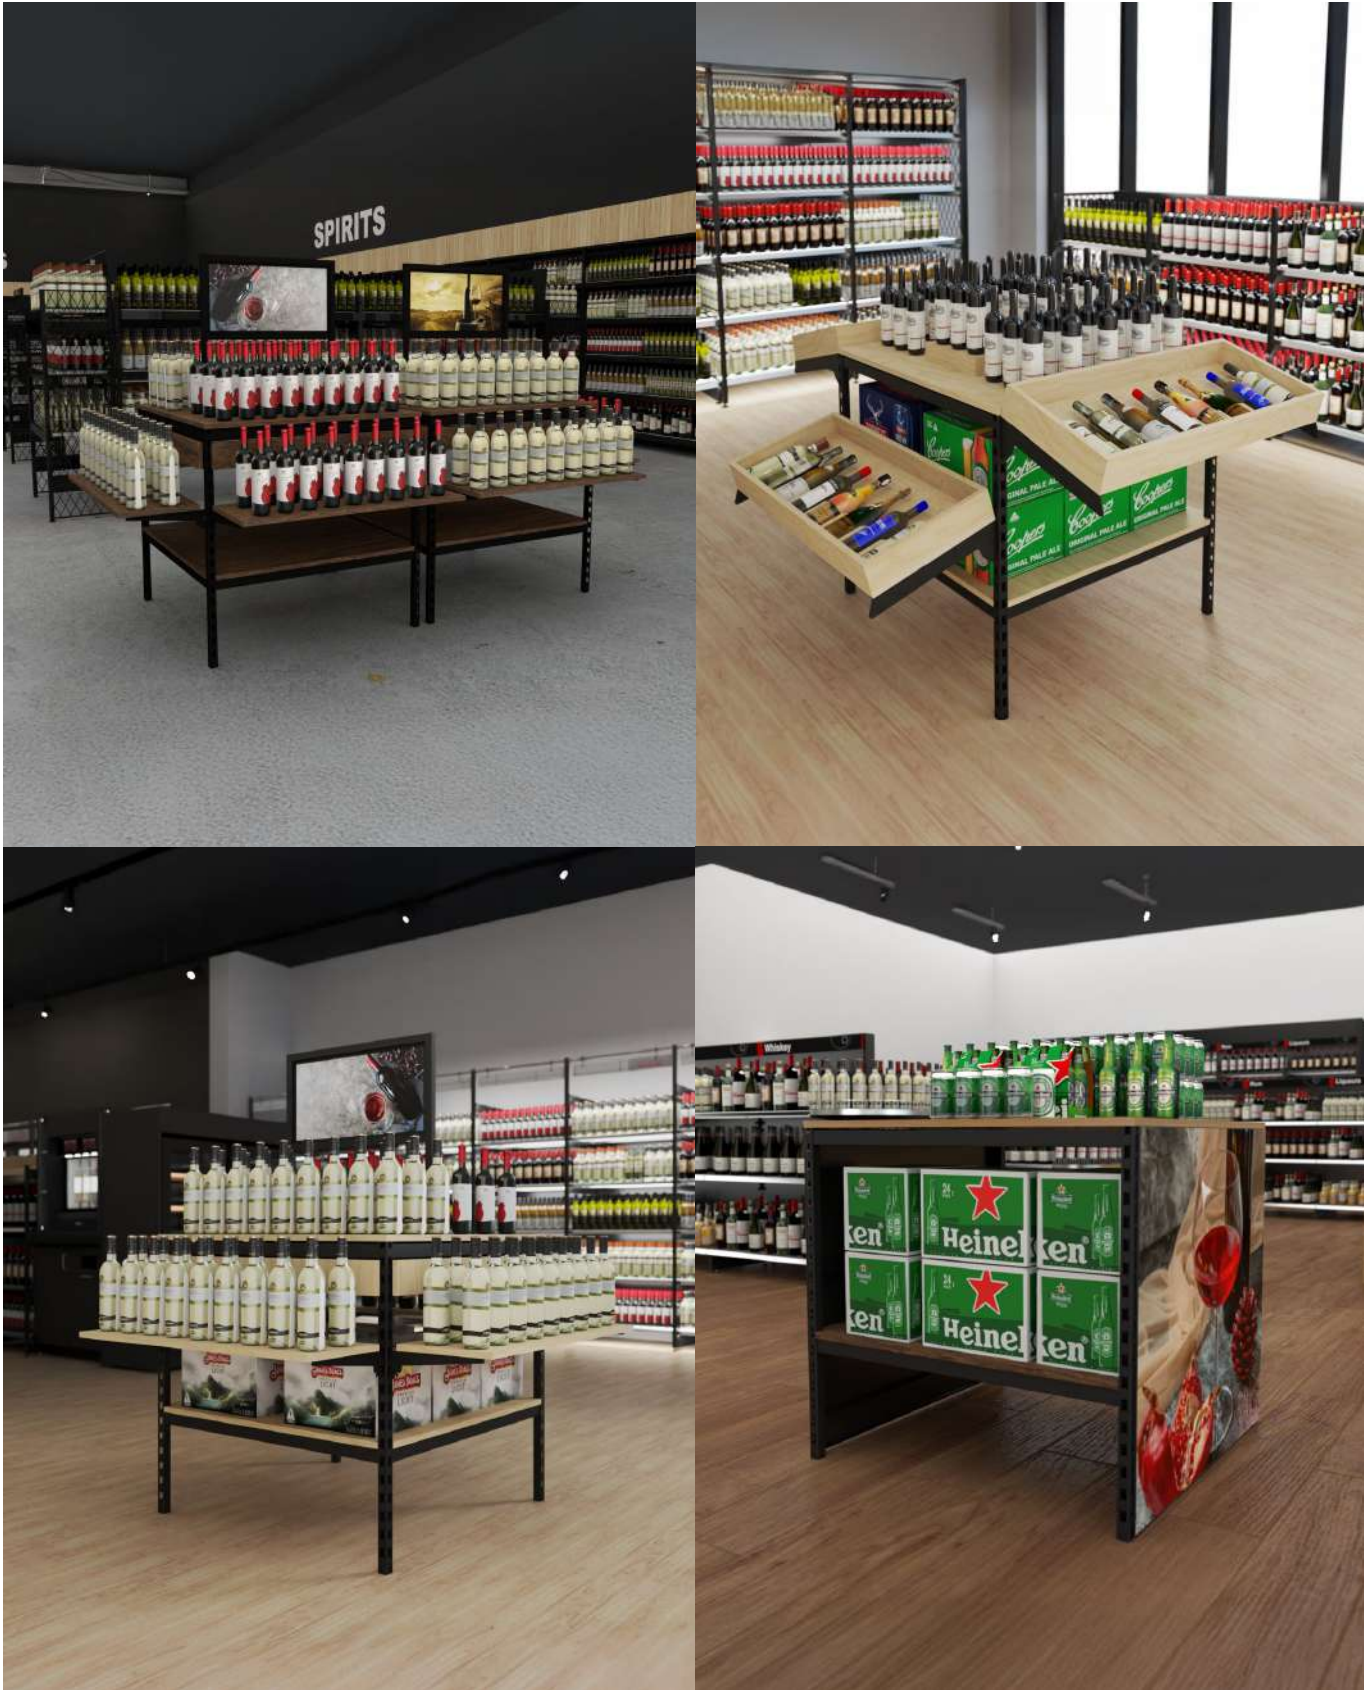

S-Mart Table - Liquor

Use S-Mart Table as the perfect complement for our renowned S-Mart Liquor Shelving.

S-Mart Table is perfect for creating product stories and focal areas within the store, and can even be configured as a tasting area located within the store.

S-Mart Table - Liquor

S-Mart Table - Fresh Food

S-Mart Table - Bakery

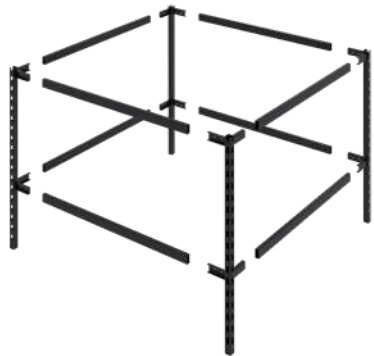

Table Kit

10547-01-02 (plain)	Braking caster

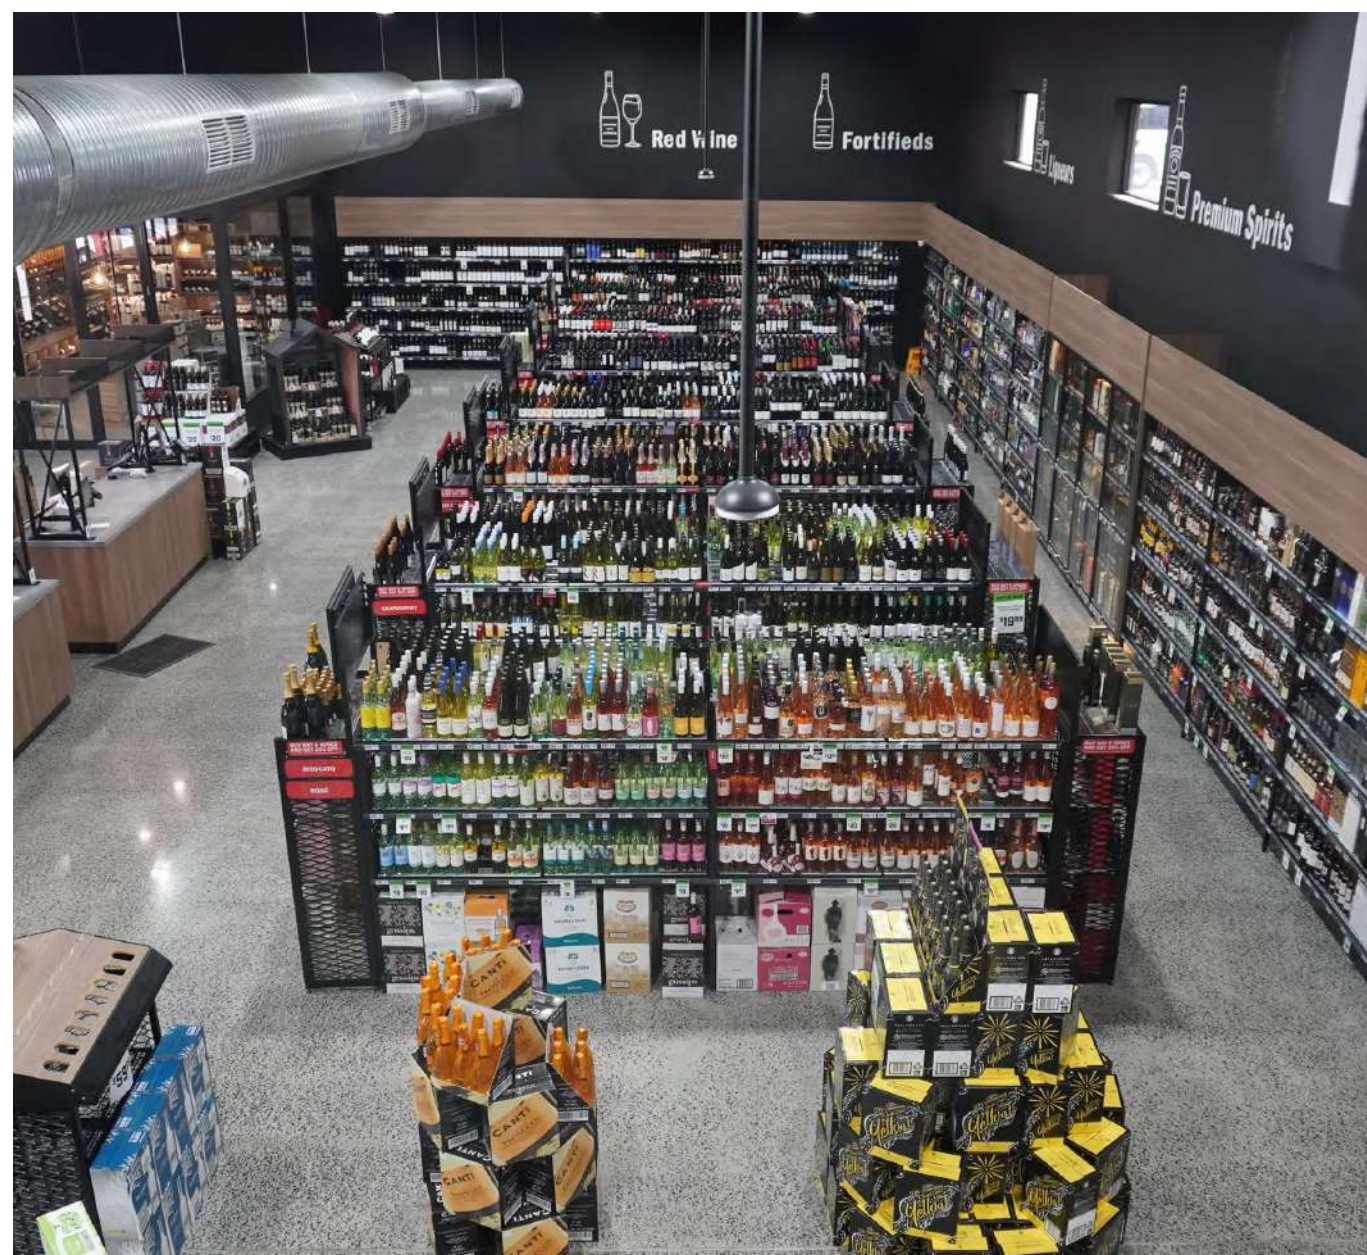

S-Mart Shelving

Long-Span Shelving Systems

S-Mart Long-Span Shelving

- The S-Mart Long Span system is the very essence of simplicity, allowing for fast installation for small or large installations
- You can select from an economical timber infill shelf or a wire shelf. These are ideal for coolroom use
- The S-Mart Long Span system is the system of choice to maximise your coolroom merchandising - the heavy-duty beams allow for storage of multiple cartons, while the frame and wire shelves are resistant to the possible condensation from the refrigerated environment
- Based on welded end frames and heavy duty welded shelving beams, the system provides ultimate strength while maintaining the quality appearance befitting your retail store
- You can take advantage of ADP's manufacturing capabilities to incorporate some of the features you will see in the image below:
 - Melamine header and end panels
 - Glass door security bays
 - Feature end panels from expanded steel mesh

S-Mart Long-Span Bays - Accessories

S-Mart Long-Span Wall Bays - Timber Infills

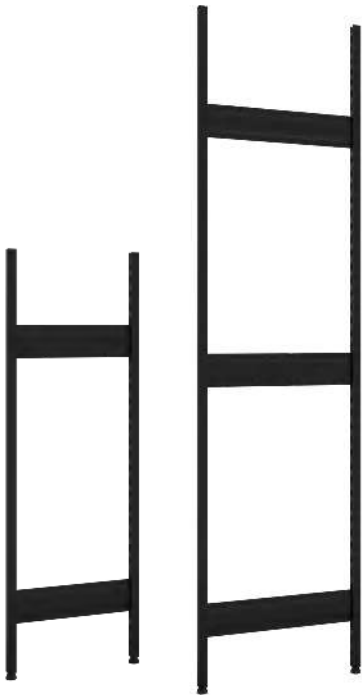

Components

1. Welded metal End Frame
2. Shelf Beams - 2 required per shelf level
3. Melamine Shelf. Standard finish - BLACK melamine
4. Wire Shelf. Standard finish - Bright ZINC coated

You require 2 x Upright Frames for initial bay.
Adjoining bays can be added on using
common Upright Frame

Upright Frames

- Select from our range of standard frame sizes designed to meet the most common requirements in a range of industries
- Fully welded construction with levelling feet
- You can also order frames manufactured in a custom size up to 900mm wide. Please enquire

Auto-Roller Shelf Mats

Benefits:

- **Neat, front-facing presentation:** Auto-roller shelf mats automatically roll products forward, ensuring bottles and cans are always fronted and tidy
- **Maximises product visibility:** Keeps labels and branding clearly visible, encouraging impulse purchases
- **Reduces staff time spent fronting:** Eliminates the need for manual product pulling, saving time and labour
- **Improves stock rotation:** Promotes first-in-first-out (FIFO) by keeping older stock at the front
- **Durable and easy to clean:** Built for high-moisture environments like coolrooms and fridges
- **Simple retrofit solution:** Easily installed into existing shelving without major modifications
- **Works with a variety of packaging:** Suitable for cans, PET bottles, glass bottles, and more

Auto-Roller Shelf Mat

- ADP's Auto-Roller Shelf Mat makes maintaining your store presentation a breeze. Easy to install, and compatible with most styles of fridge and coolroom shelving, the Auto-Roller Shelf Mat will ensure drinks are always displayed at the front of your fridge or coolroom doors

Part No.	Size (W x D)	Colour
AP720	680 × 550	Black

Auto-Roller Wire Divider

- Wire dividers keep merchandise neatly segmented on your Auto-Roller Shelf Mat. Dividers can be adjusted along the Auto-Roller Shelf Mat using the in-built groove rail

Part No.	Size (L x H)	Colour
AP721	512×130	Silver

Auto-Roller Acrylic Front

- Ideal for angled shelves, the Acrylic Front for Auto-Roller Mats ensures that stock is retained as close as possible to the front of the shelf mat

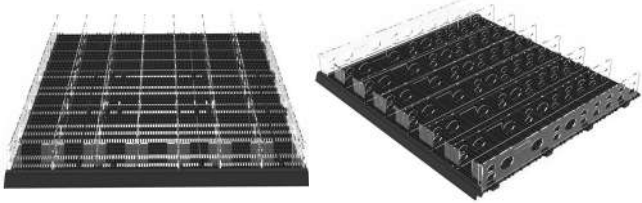

Part No.	Size (L x H)	Colour
AP723	676 × 70	Clear

Gravity Mats

Benefits:

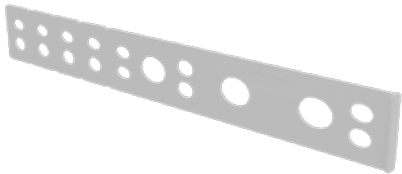

- **Cost-effective solution:** An affordable way to upgrade fridge or coolroom shelving without investing in full roller systems
- **Improves shelf appearance:** Ensures drinks slide forward for a consistently neat, fronted display
- **Reduces labour costs:** Minimises the time staff spend manually fronting stock
- **Enhances product visibility:** Keeps labels and packaging clearly in view to boost impulse sales
- **Promotes stock rotation:** Helps ensure FIFO by naturally moving older stock to the front
- **Quick retrofit:** Easy to install into most existing shelf setups with no tools or major changes
- **Durable and hygienic:** Made from low-friction plastic, designed for wet and cold environments

Gravity Shelf Mat

- ADP's Gravity Shelf Mat is a cost-effective solution for maintaining optimum shelf presentation in your store. Use with the Gravity Divider to achieve the perfect combination of presentation and flexibility

Part No.	Size (W x D)	Colour
AP725BL	670 × 550	Black

Gravity Divider

- Acrylic dividers keep merchandise neatly segmented on your Gravity Shelf Mat. Dividers can be adjusted along the Gravity Shelf Mat using the in-built groove rail

Part No.	Size (L x H)	Colour
AP726	550 × 70	Black

Data Strip

Clip-On Data Strip with Gripper

ADP Clip-On Data Strip is the complete solution to your shelf ticketing needs. The innovative clip-on desig enables fast and accurate attachment to the shelf lip.

Compared to traditional adhesive data strip, ADP’s clipon solution is a durable and hassle-free solution in all temperature environments.

- Benefits:**
- No adhesive for long-lasting attachment
 - Fast and accurate installation
 - Suits ADP S-Mart shelves and most other common shelving brands
 - Full length ‘Gripper’ strip for specials and other promotional signage
 - Now available in 32mm and 39mm ticket heights

AP57835	Suspension fitting
AP57830	End cap

Shelf Divider Systems - Plastic Dividers

ADP's range of shelf dividers take your shelf presentation to the next level.

Your store upkeep is made easier with products kept neatly in their allocated bays. The divider rails insert into the unique channel in the S-Mart shelf. This ensures a longer lasting solution and superior accuracy of installation compared to adhesive rail systems.

Divider Rails

AP6552RAW	3000	Raw	6
AP6552PC	3000	Powdercoat to specification	6

Levelling Foot

- For use with slotted tubing when using wall-mounted brackets
- Transfers much of the weight of the post to the floor

Part No.	Finish	CTN Qty.
AP40000	Zinc	200

Tubing - 40mm

Wall - Mounting Spacer

- Heavy-duty 2 piece chrome bracket eliminates the need for the aluminium wall channel
- Mount the round flange onto the wall and screw the plate onto back of slotted tubing
- Fasten together by tightening grub screws

Part No.	Finish	CTN Qty.
AP9230C	Chrome	100
AP9230B	Black	100

Floor - Ceiling Fixing Kit

- Allows for mounting of posts in central displays, display windows, etc
- Includes upper flange with sliding insert fitting and bottom levelling flange for floor fixing

Part No.	Finish
AP9232B	Black
AP9232W	White

'H' Racks - 40mm

Mobile 'H' Shape Gondola - 40mm Pitch

- Superb in its simplicity, this slotted frame unit can be fully merchandised around all 4 sides
- Centre frame with middle upright allowing for universal merchandising using 600mm accessories
- Shown with optional castors

Part No.	Overall Dimensions (LxWxH)	Finish
AP6555C	1290 × 630 × 1300	Chrome

Rubber Wheels for Gondola

- Heavy duty 75mm rubber swivel casters
- 3/8 Thread

Part No.	Finish
AP5047PL	Plain
AP5047BR	Braking

Mobile 'H' Shape Gondola - 40mm Pitch

- Now the basic 'H' Rack frame can be simply converted into a fully functional free-standing unit that will match your store interior
- Individual end panels are purchased separately so that you can install them in all 4 zones, just in the centre, or on the ends. (The item pictured has 4 x infil panels)
- Individual panels are provided in 18mm thick pre-finished board and are simply screwed into pre-drilled holes in the rack using the screws provided
- Available in the ADP standard colour range or any other board colour, as specified
- Shown with optional infil panels x4 off

Part No.	Overall Dimensions (WxHxD)	Finish
AP6557COL	548 × 1253 × 18	As specified

Concealed Stripping - 40mm

Single - Slot Centre

- Designed for ease of installation – no rebating of panels required. Includes fixing channels for countersunk screws
- Provides panel spacing from wall to allow for aluminium split battens (see page 331)
- 40mm Pitch

Part No.	Length	Finish
AP6500/40	2400	Mill Finish

Single - Slot End

- 40mm Pitch

Part No.	Length	Finish
AP6501/40	2400	Mill Finish

Double - Slot Centre

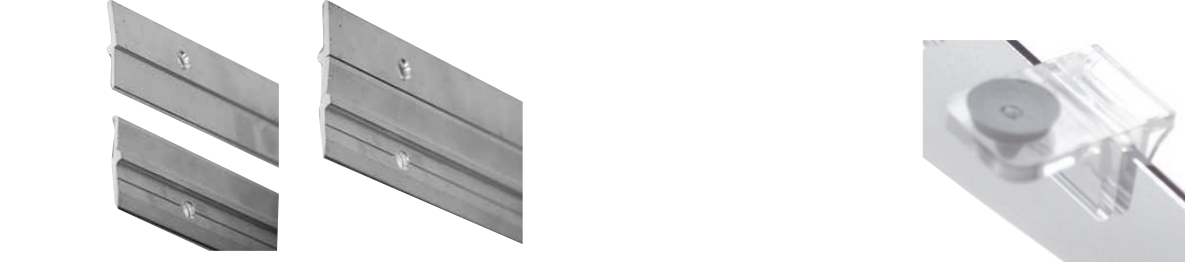

- Allows for side by side placement of brackets
- 40mm Pitch

Part No.	Length	Finish
AP6502/40	2400	Mill Finish

Concealed Aluminium Wall Stripping

- The ALIAS system provides some exciting opportunities for free-standing or wall-mounted merchandising. Based on a system of concealed, slotted aluminium wall strips, we can provide you with a complete system with infill panels in plain melamine finish or PLANKWALL panels for additional merchandising flexibility
- Aluminium strips can be rebated

Aluminium Split Batten

- This heavy-duty split rail is a very solid extrusion that allows for installation of full-size panels
- Pre-drilled holes at 300mm centres for easy attachment to wall or back of panel
- Designed to complement the concealed stripping profiles, this section perfectly matched the thickness of the fixing channel

Part No.	Length	Finish
AP6503/5M	2500	Mill Finish

Straight Shelf Brackets - 2-Lug

- 40mm Pitch

Part No.	Length	Finish
AP5359C	200	Chrome
AP5359W	200	White

Panels and Inserts

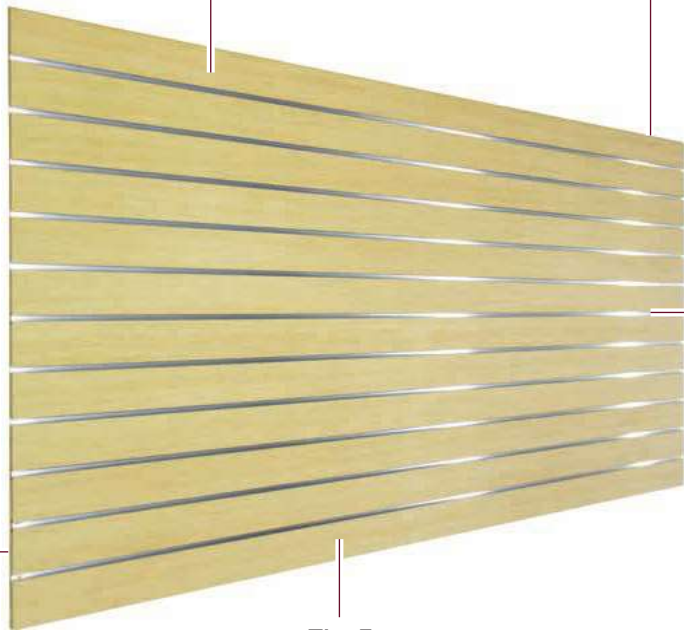

Plankwall - Australia's Favourite Merchandising Panel

- The display system of choice for a broad spectrum of retailers requiring flexible merchandising capabilities and superior finished appearance.
- Our huge range of accessories simply hook into the grooves and can be changed around just as simply to provide endless flexibility. You can select from prongs for hangsell, faceouts and hangrails for clothing to a full range of shelving options. You are never limited with Plankwall merchandising panels – changing accessories can be done in a flash.
- Colour range – Plankwall is stocked in a range of basic commodity colours that provide for most applications. We can also rout any board from any manufacturer to your exact specifications.
- The strength of the panel is enhanced by the aluminium insert in the groove, allowing excellent weight-bearing capacity.
- The Aluminium groove inserts provide a refined finished product that will enhance your merchandise presentation.

Groove Spacing	No. Inserts per Panel
100mm (standard)	11.5
50mm	23.5
75mm	15.5
150mm	7.5

The ½ quantity allows for horizontal joining insert when using more than single panel height

The Size (L x H)
2400mm x 1200mm

The Core
18mm MDF sourced only from sustainably managed forests in Australia or New Zealand.

The Face
Durable, highquality melamine surface for long lasting appearance and easy care.

Top ½ Groove
Allows panels to be placed on top with an invisible horizontal join.

The Groove & Insert
The strength of the panels is derived from the aluminium insert that slides easily into the precision-machined groove (see above for the inserts required for some common panel configurations).

Panels and Inserts

White - Single Faced

- Item no. AP4010
- Economical option with melamine face on front face only. Back – raw MDF
- Panel size – 2400mm(L) x 1200mm(H)
- Material – 18mm thick MDF

Black - Single Faced

- Item no. AP4011BLA
- Economical option with melamine face on front face only. Back – raw MDF
- Panel size – 2400mm(L) x 1200mm(H)
- Material – 18mm thick MDF

Aluminium Inserts

- Purchase inserts separately

Part No.	Length	Finish
AP4255	2400	Mill Finish
AP4255BLA	2400	Black Anodised

MDF Batten

- Wall-mounting battens provide for simpler installation on masonry walls by providing a more even mounting surface and panel joining
- Available in 18 or 32mm thick to allow for installing panelling over conduits and other obstructions

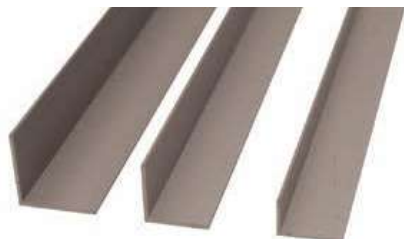

Part No.	Size	Thickness
AP9400	2350 × 115	18
AP9401	2350 × 115	18

Aluminium 'H' Joiner

- Covers small discrepancies between panel joints
- May be used either way depending on coverage required

Part No.	Length	Finish
AP4223	2400	Mill Finish

Aluminium Angles

- Our range of common angles are a convenient solutions for various finishing options

Part No.	Size	Length	Finish
AP9210A	25 × 25	6500	Clear Anodised
AP9215A	20 × 20	6500	Clear Anodised
AP9400	20 × 12	6500	Clear Anodised

The Plankwall ALL-ALI system is a range of extruded aluminium profiles that offers modern high-tech design with the following features:

- Available in long lengths - 5 metres - for display walls with minimal joins
- Totally concealed fixing, with each successive plank covering the fixings on the previous one
- Lightweight and easy to assemble - only requires 1 man installation
- Extensive colours and finish options available. Stocked in clear anodised finish to give you a sophisticated metallic look or in mill finish that may be powdercoated in a whole range of colours to your specification
- The extruded section provides a more seamless finish without the visible distraction of different coloured inserts in the grooves on a timber panel

ALL - ALI

ALL-ALI

- 25/50/75mm groove spacing
- Section thickness – 12mm
- To calculate overall panel height = (No. of planks x 150mm) + Top cap height

Part No.	Effective Height	Length	Finish
25mm Groove Spacing			
AP4305A	150	5000	Clear Anodised
