Liquor

Choosing the right shelving is the first step in any successful Liquor Store project. ADP's Liquor Outrigger Shelving is available in Gondola (Floor), Wall Shelving and End Bay configurations.

ADP S-Mart Liquor Outrigger Shelving is a proven, heavy-duty shelving system designed specifically for Liquor Stores. It offers the perfect combination of style and strength, and is sure to set your Liquor store apart

Available in 470mm (6 bottle) or 570mm (7 bottle) shelf depths, Liquor Outrigger Shelving has the flexibility to adapt to any store layout. It's unique modular design allows maximum adjustment of shelves and configuration to either single or double-sided shelving bays using the same components.

It is the only Liquor Shelving that provides unique 'back-panels' behind the shelves. These back-panels help to prevent bottles falling between the shelves, and are another design feature that gives Liquor Outrigger Shelving it's attractive appearance.
- Upmarket, modern design to enhance store presentation
- Proven, heavy-duty shelving system designed specifically for Liquor Stores
- Flexible, modular construction to adapt to any store layout

Gondola Shelving - Gondola Curved End Shelves

## Gondola Curved End Shelves

- Now you can make a grand statement with the Radius Wire Shelves. Designed to fit perfectly onto the end of a Cantilever or Outrigger gondola, they provide scope for some stunning merchandising effects

- Can be used in-line with the gondola shelves or at different heights to provide another alternative display

- Can be retro-fitted onto other brand gondolas or onto the S-Mart Long Span shelving by adding an additional gondola upright

- Use different radius shelves to provide a "pyramid" effect on your gondola ends

- Radius wire shelves assist with traffic flow and customer navigation through your store
Base Shelf (with base feet)

Upper Shelf (with shelf brackets)

AP40754MB	1000 (use on 1000mm Gondola bays)	100
AP40755MB	1230 (use on 1200mm Longspan bays)	100

Wall Shelving - Premium Lockable Wall Shelving Bays

- Many liquor retailers are enjoying the benefits of prominently displaying their valuable spirits with the peace-of-mind of knowing that they will be secure from opportunistic theft

- Glass sliding door kits including top and bottom beams and glass doors with track attached for ease of installation

- Lockable doors slide easily on a quality aluminium roller track system

- Designed to be easily installed on new or existing S-Mart outrigger wall bays

- You can select from our range of standard glass doors heights. Additional sets can be customised to secure your entire display

- Order melamine end panels separately to block off the end of the shelving run

Timber Box for Angled Bottle Display

- Fits into standard shelving uprights using 470mm shelf brackets and "U" channels mounted underneath

- 8-compartment fabricated box in melamine or plywood finishes

Part No.	Dimension
AP40748	914 × 400 × 55 Includes bracket set for mounting to uprights

Wall Shelving - Glass Door Security Wall Shelving

We have developed the following standard door heights to best suit the display of bottles (Door sizes are internal opening height):

1550mm Standard Wall Bay

- Use in standard wall bay, provides security for 4 shelves, leaving base shelf open

Part No.	Description	
AP40769/15	Set of glass doors & beams	914mm bay
AP9769/15	Set of glass doors & beams	1000mm bay

1950mm Standard Wall Bay

- Use in standard wall bay, provides security for 5 shelves

2600mm Standard Wall Bay

- Double set of sliding doors on extended height wall bays - provides full security for 6 shelves, incorporates intermediate horizontal beam above lower 2 shelves

Part No.	Description	
1950mm Standard Wall Bay		
AP40769/19	Set of glass doors & beams	914mm bay
AP9769/19	Set of glass doors & beams	1000mm bay
2600mm Standard Wall Bay		
AP40769/26	Set of glass doors & beams	914mm bay
AP9769/26	Set of glass doors & beams	1000mm bay

800mm Standard Wall Bay

- Provides security for 2 shelves

Part No.	Description	
AP40769/15	Set of glass doors & beams	914mm bay
AP9769/15	Set of glass doors & beams	1000mm bay

Design Considerations

- Melamine end panels can be provided to close off the ends of glass door bays (see next page)

- If you wish to stop your glass door bays in the middle of a wall run, you can close off the end so that access can't be made into the security area from the open shelving by either of the following methods:

  1. Use full melamine end panel. For this option, you will need to begin another Starter Bay adjacent to the security section.

  2. Purchase 2 Outrigger Shelf Brackets per shelf level and use these to restrict access.

Feature Displays - Display Table Concept

Feature Displays - Display Table Concept

- Proven to be a highly successful tool to drive sales in Liquor stores
- Create a stunning focal point in your store.
- Ideal for promotions, tasting nights, product features and more

- Stylish laminated timber benchtop
- Maximise selling/stock capacity below benchtop
- LED Shelf Lighting to all shelves

Wine Pegs

Wine Pegs

- Wine Pegs present an amazing opportunity to create a unique method of displaying premium wines horizontally to create a boutique atmosphere.

- Available in "Label-Forward" or "Cork- Forward" configurations, the Wine Pegs can be mounted onto solid backing panels of various materials.

Single

49.00	41.50	0.50
91.00		11.70
112.30		

Double

| 91.00 | 91.00 | 11.70 |
| 204.80 | | |

Supplied with bolts to fix on behind a melamine wall panel or with sliding fittings to fit into the "Wine Peg Slider" wall panelling system.

- The Wine Peg Slider wall system allows for adjustable spacing of "Label Forward" wine bottles with varying densities for seasonal fluctuations.

- The ADP Design Team will be pleased to assist you in developing a configuration that will suit your space and design requirements.
"Label-Forward" Wine Peg Slider

- This amazing panel-based system allows for some creative ways to display your wine collection in all manner of spaces.

- The panels are design to hook onto the wall with heavy-duty aluminium split battens so that they can be lifted off to make alterations if required.

- You can adjust the number of pegs according to the space requirements of your collection.
